# SZANOWNI PAŃSTWO

Zapraszamy do zapoznania się z ofertą ROSSIGNOL RACE 2021/22 na sprzęt i akcesoria marki ROSSIGNOL. Nasza oferta skierowana jest do klubów, zawodników i szkół narciarskich, które nastawione są na szkolenia sportowe i tym samym wymagają najlepszego sprzętu dla użytkowników.

**OFERTA, CENY RACE, ZAMÓWIENIA RACE**

W załączonej ofercie znajdą Państwo:

• Produkty z linii RACE, przeznaczone do sportu wyczynowego we wszystkich kategoriach wiekowych. Oferta zawiera specyfikację techniczną i opis produktów RACE.
• Ceny produktów z linii RACE skalkulowane są na poziomie sugerowanej ceny detalicznej, pomniejszonej o 20%. Cennik RACE dostępny jest na stronie www.pmsport.pl w zakładce RACE, hasło „hero".

**REALIZACJA ZAKUPÓW Z OFERTY RACE, CENY , OFERTY DODATKOWE, PROMOCJE:**

Zamówienie składane przez KLUBY, TRENERÓW, RODZICÓW lub ZAWODNIKÓW na produkty RACE do dnia 31 marca 2021r. czyli tzw. PREORDER będzie realizowane z rabatem 10 % od cen RACE.

Zawodnik, który złoży w terminie tj. do 31.03.2021r. zamówienie RACE PREORDER, przy zakupie zamówionych produktów otrzymuje RACE VOUCHER, ważny na produkty ROSSIGNOL, LANGE, DYNASTAR, POC. RACE VOUCHER może być zrealizowany w wybranych sklepach, obsługujących program RACE. Wartości RACE VOUCHERÓW: zakupy z zam. RACE PREORDER o wartości min. 2500 zł - Voucher 200 zł , o wartości min. 4000 zł - 400 zł. RACE VOUCHER może być zrealizowany na zakupy produktów spoza zamówienia RACE PREORDER. Szczegółowe zasady promocji dostępne w sklepach, obsługujących program RACE i na stronie www.pmsport.pl

## SKŁADANIE I REALIZACJA ZAMÓWIEŃ RACE

RACE Voucher wydawany jest wyłącznie, przy zakupie produktów zamówionych do 31.03.2021 r. w RACE PREORDER

• Obsługą zamówień RACE będą zajmowały się sklepy partnerskie, których lista wraz z osobami kontaktowymi dostępna będzie na stronie www.pmsport.pl w zakładce RACE, hasło „hero".

• Formularze zamówień RACE dostępne będą na stronie www.pmsport.pl w zakładce RACE, hasło „hero".
Warunkiem realizacji zamówienia RACE jest przesłanie go do dnia 31.03.2021 r. na adres mailowy osoby odpowiedzialnej za obsługę programu RACE w PM SPORT (dane w ofercie RACE) lub na adres mailowy sklepu partnerskiego.

## OFERTY SPECJALNE, PROMOCJE, OFERTY DLA KLUBÓW

Przy IMIENNYM zamówieniu dwóch par nart i więcej dla JEDNEGO zawodnika istnieje możliwość zakupu butów narciarskich z rabatem 25 % od ceny RACE. Promocja będzie honorowana na podstawie imiennej listy zawodników przedstawionej w terminie składania zamówień przedsezonowych.

• **WARUNKI WSPÓŁPRACY Z KLUBAMI NARCIARSKIMI:**
Kluby zainteresowane nawiązaniem szerszej, partnerskiej współpracy prosimy o kontakt. Oferta dla Klubów przewiduje konkretne wsparcie klubu i zawodników indywidualnie ustalane z zarządem Klubu.

• **OFERTA DLA TRENERÓW I INSTRUKTORÓW SITN:**
Zamówienia imienne „Preorder" składane do 31.03.2021r. przez trenerów grup sportowych, prowadzących szkolenie w ramach klubu oraz zamówienia aktywnych instruktorów, zatrudnionych w licencjonowanych szkołach narciarskich SITN będą realizowane w cenach RACE z dodatkowym rabatem 25 %. Warunkiem skorzystania z oferty jest złożenie zamówienia do 31.03.2021r. oraz pozytywna weryfikacja, poświadczenie przez Klub lub przez licencjonowaną szkołę narciarską zrzeszoną w SITN.

## TERMINY, ZAMÓWIENIA

**TERMIN SKŁADANIA ZAMÓWIEŃ PRZEDSEZONOWYCH UPŁYWA W DNIU 31.03.2021 r.**
Zamówienia złożone po 31.03.2021r. i w trakcie sezonu 2021/2022 będą realizowane w cenach RACE, aż do wyczerpania zapasów

# SKIS ATHLÈTES

A SERIE

# BAND *OF* HEROES

**Nasza ekipa HERO może wspominać już ostatnią zimę, która przejdzie do historii Rossignol'a.**

Francuska marka wygrała klasyfikację generalną Pucharu Świata w narciarstwie alpejskim oraz biathlonie kobiet i narciarstwie biegowym mężczyzn, zdobywając łącznie 23 Kryształowe Kule wygranych przez 11 sportowców w 5 różnych dyscyplinach (alpejska, biathlon, biegi narciarskie, muldy i narciarstwie adaptacyjnym)!

Ponadto Rossignol wygrał ranking marek z łącznie 55 miejscami na podium, w tym 19 zwycięstw w narciarstwie alpejskim.

Gratulacje dla naszych sportowców i wszystkich, którzy pracują razem z nimi!

## 1 TECHNOLOGIA DLC

Używana w Pucharze Świata przez naszych sportowców Tessę Worley i Petra Vlhova.
DLC to kompletny hydrauliczny amortyzator z punktem mocowania na dziobie narty.

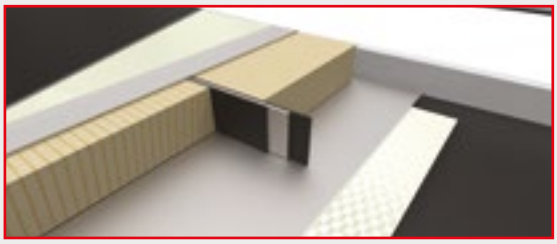
- Brak odwróconego cambera!
- Stabilność pomiędzy bramkami (rynny na trasie)
- Idealna sztywność narty w skrętach
- Doskonałe trzymanie krawędzi
- Energiczne wykończenie skrętu

DLC oparty jest na inteligentym hydraulicznym systemie

*> WIĘKSZA KONTROLA SKRĘTU*

## 2 TECHNOLOGIA LINE CONTROL AKTYWACJA ENERGII

**Technologia LCT została opracowana z myślą o serii Racing.** Centralnie umieszczona w drewnianym rdzeniu szyna biegnąca przez całą długość narty eliminuje drgania, by zapewnić stabilność i dynamikę przy idealnej linii skrętu..



## 3 PROMIEŃ SKRĘTU MASTER

Narciarski złoty środek w kategorii „Master" to nowe, bardziej nowatorskie podejście do kwestii promienia skrętu, w zgodzie z obecną techniką jazdy. Skrócony promień skrętu w każdym z prezentowanych modeli sprawia, że seria Master oferuje jeszcze więcej frajdy, pozwalając na efektywniejszą inicjację skrętu i zapewniając większą precyzję i panowanie nad nartami.

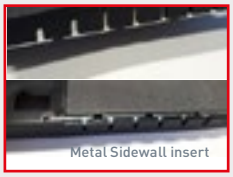
## 1 R22 WC

**Płyta R22 została opracowana przy współpracy z naszymi sportowcami z Pucharu Świata.**

- Rozmiary skorupy butów: 264-352 mm
- Płyta kompatybilna z wiązaniami: PX18, SPX 15, SPX 14, SPX 12 ROCKERACE
- Monolityczna
- Metalowe otwory
- Metalowa ściana boczna w celu usztywnienia konstrukcji
- Waga: 395gr (1/2 pary)



Metal Sidewall insert

**KORZYŚCI**
- Stała elastyczność
- Niska waga
- Lifter dla lepszego kąta
- Większa sztywność

## 2 R21 PRO

**Płyta R21 Pro to młodsza wersja płyty R22, opracowana dla młodych mistrzów.**

- Rozmiary skorupy butów: 241-317 mm - 20 rozmiarów butów narciarskich
- Płyta kompatybilna z wiązaniami: SPX 10 GW, NX 10 GW, NX 7 GW
- Dwuczęściowa
- Kompozytowe otwory
- Waga: 190gr (1/2 pary)

**KORZYŚCI**
- Stała elastyczność
- Niska waga
- Lifter dla lepszego kąta

## 1 TECHNOLOGIA DUAL CORE

**The entire HERO WORLD CUP and HERO range features the DUAL CORE TECHNOLOGIA.** The DUAL CORE TECHNOLOGIA involves injecting materials with different hardness levels into the same mould, **with three injection points in the SKORUPA and two injection points in the CHOLEWA.** The result is a sandwich KONSTRUKCJA with an ultra-thin layer of hard materials on the outside encapsulating the softer materials inside.

**This TECHNOLOGIA can be used to accurately fine-tune the progressive flex, rear support and rebound. It also allows for highly effective lateral power transfer.**

## 2 WSTĘPNIE FORMOWANY ANATOMICZNY BUT WEWNĘTRZNY

The lower part of these BUT.WEWs is pre-shaped around the ankle bone to ensure a snug fit with the SKORUPA's internal SZEROKOŚĆ. The shape can be seen on the outside of the BUT.WEW.

Henrik **KRISTOFFERSEN** (NOR)
GS WORLD CHAMPION 2019

## RPG IN&MOTION AIRBAG VEST

Oficjalnie zatwierdzony przez Międzynarodową Federację Narciarską w czerwcu 2015 r. inteligentna poręczna poduszka powietrzna In&motion została opracowana w ścisłej współpracy z najlepszymi zawodowymi narciarzami, chirurgami urazowymi i sportowcami Rossignola, której celem jest zwiększenie ochrony bez uszczerbku dla wygody i wydajności. Używana w Pucharze Świata w Narciarstwie Alpejskim i Skicross'ie przez zawodników z 7 różnych krajów z dziesiątkami udanych aktywacji podczas startów. Technologia In&motion we współpracy z Rossignol Protective Gear jest pierwszą inteligentną poręczna poduszka powietrzna dostępna publicznie.

**ROSSIGNOL RACE DEPARTAMENT REKOMENDUJE (Narty, Wiązania, Buty narciarskie)**

Uwagi ogólne: Wybór nart, zarówno model jak i długość, zawsze będzie bardzo osobistą i w dużym stopniu bardzo subiektywną decyzją. Następujący wykres pokazuje niektóre z powszechnych trendów, które dostrzegliśmy w wyniku naszych bieżących testów, które należy wziąć pod uwagę podczas podejmowania decyzji związanej z wyborem modelu i długości nart. Optymalna długość nart zależy od następującej kolejności: umiejętności, wagi i siły. Rossignol Race Department ma nadzieję, że zapisane tu informacje będą przydatne.
Powodzenia w wyścigach!

# SZANOWNI PAŃSTWO

Zapraszamy do zapoznania się z ofertą DYNASTAR, LANGE, KERMA RACE 2021/22 na sprzęt i akcesoria marki DYNASTAR, LANGE, KERMA. Nasza oferta skierowana jest do klubów, zawodników i szkół narciarskich, które nastawione są na szkolenia sportowe i tym samym wymagają najlepszego sprzętu dla użytkowników.

**OFERTA, CENY RACE, ZAMÓWIENIA RACE**

W załączonej ofercie znajdą Państwo:

• Produkty z linii RACE, przeznaczone do sportu wyczynowego we wszystkich kategoriach wiekowych. Oferta zawiera specyfikację techniczną i opis produktów RACE.
• Ceny produktów z linii RACE skalkulowane są na poziomie sugerowanej ceny detalicznej, pomniejszonej o 20 %. Cennik RACE dostępny jest na stronie www.pmsport.pl w zakładce RACE, hasło „hero".

**REALIZACJA ZAKUPÓW Z OFERTY RACE, CENY OFERTY DODATKOWE, PROMOCJE:**

Zamówienie składane przez KLUBY, TRENERÓW, RODZICÓW lub ZAWODNIKÓW na produkty RACE do dnia 31 marca 2021r. czyli tzw. PREORDER będzie realizowane z rabatem 10 % od cen RACE.

Zawodnik, który złoży w terminie tj. do 31.03.2021r. zamówienie RACE PREORDER, przy zakupie zamówionych produktów otrzymuje RACE VOUCHER, ważny na produkty DYNASTAR, LANGE, KERMA. RACE VOUCHER może być zrealizowany w wybranych sklepach, obsługujących program RACE. Wartości RACE VOUCHERÓW: zakupy z zam. RACE PREORDER o wartości min. 2500 zł - Voucher 200 zł , o wartości min. 4000 zł - 400 zł. RACE VOUCHER może być zrealizowany na zakupy produktów spoza zamówienia RACE PREORDER. Szczegółowe zasady promocji dostępne w sklepach, obsługujących program RACE i na stronie www.pmsport.pl

# SKŁADANIE I REALIZACJA ZAMÓWIEŃ RACE

RACE Voucher wydawany jest wyłącznie, przy zakupie produktów zamówionych do 31.03.2021 r. w RACE PREORDER

• Obsługą zamówień RACE będą zajmowały się sklepy partnerskie, których lista wraz z osobami kontaktowymi dostępna będzie na stronie www.pmsport.pl w zakładce RACE, hasło „hero".

• Formularze zamówień RACE dostępne będą na stronie www.pmsport.pl w zakładce RACE, hasło „hero".
Warunkiem realizacji zamówienia RACE jest przesłanie go do dnia 31.03.2021 r. na adres mailowy osoby odpowiedzialnej za obsługę programu RACE w PM SPORT (dane w ofercie RACE) lub na adres mailowy sklepu partnerskiego.
OFERT SPECJALNE, PROMOCJE, OFERTY DLA KLUBÓW.

Przy IMIENNYM zamówieniu dwóch par nart i więcej dla JEDNEGO zawodnika istnieje możliwość zakupu butów narciarskich z rabatem 25% od ceny RACE. Promocja będzie honorowana na podstawie imiennej listy zawodników przedstawionej w terminie składania zamówień przedsezonowych.

**• WARUNKI WSPÓŁPRACY Z KLUBAMI NARCIARSKIMI:**
Kluby zainteresowane nawiązaniem szerszej, partnerskiej współpracy prosimy o kontakt. Oferta dla Klubów przewiduje konkretne wsparcie klubu i zawodników indywidualnie ustalane z zarządem Klubu.

**• OFERTA DLA TRENERÓW I INSTRUKTORÓW SITN:**
Zamówienia imienne „Preorder" składane do 31.03.2021r. przez trenerów grup sportowych, prowadzących szkolenie w ramach klubu, oraz zamówienia aktywnych instruktorów, zatrudnionych w licencjonowanych szkołach narciarskich SITN będą realizowane w cenach RACE z dodatkowym rabatem 25 %. Warunkiem skorzystania z oferty jest złożenie zamówienia do 31.03.2021r. oraz pozytywna weryfikacja, poświadczenie przez Klub lub przez licencjonowaną szkołę narciarską zrzeszoną w SITN.

# TERMINY, ZAMÓWIENIA

**TERMIN SKŁADANIA ZAMÓWIEŃ PRZEDSEZONOWYCH UPŁYWA W DNIU 31.03.2021r**
Zamówienia złożone po 31.03.2021r. i w trakcie sezonu 2021/2022 będą realizowane w cenach RACE, aż do wyczerpania zapasów.

## TRANSMISJA ENERGII

### 1 R22 WC

***Płyta R22 została opracowana przy współpracy z naszymi sportowcami Pucharu Świata.***

- *Rozmiary skorupy butów : 264-352 mm*
- *Płyta kompatybilna z wiązaniami: PX18, SPX 15, SPX 14, SPX 12 ROCKERACE*
- *Monolityczna*
- *Metalowe otwory*
- *Metalowa ściana boczna w celu usztywnienia konstrukcji*
- *Waga: 395g (1/2 pary)*

**KORZYŚCI**
- *Stała elastyczność*
- *Niska waga*
- *Lifter dla lepszego kąta*
- *Większa sztywność*

### 2 R21 PRO

***Płyta R21 Pro to juniorska wersja płyty R22, opracowana dla młodych mistrzów.***

- *Rozmiary skorupy butów: 241-317 mm - 20 rozmiarów butów narciarskich*
- *Płyta kompatybilna z wiązaniami: SPX 10 GW, NX 10 GW, NX 7 GW*
- *Dwuczęściowa*
- *Kompozytowe otwory*
- *Waga: 190gr (1/2 pary)*

**KORZYŚCI**
- *Stała elastyczność*
- *Niska waga*
- *Lifter dla lepszego kąta*

## MOC I PRECYZJA

*Stworzony do stania na szczycie podium. Rewolucyjny design w połączeniu z zoptymalizowaną dwurdzeniową konstrukcją Dual Core zapewnia niesamowitą kontrolę energii, wielką precyzję i responsywność. Dzięki dokładnemu dopasowaniu but RS staje się naturalnym przedłużeniem ciała gwarantującym całkowitą kontrolę i przenoszenie mocy.*

# DYNASTAR RACE DEPARTAMENT REKOMENDUJE (NARTY, WIĄZANIA, BUTY NARCIARSKIE)

Uwagi ogólne: Wybór nart, zarówno model jak i długość, zawsze będzie bardzo osobistą i w dużym stopniu bardzo subiektywną decyzją. Następujący wykres pokazuje niektóre z powszechnych trendów, które dostrzegliśmy w wyniku naszych bieżących testów, które należy wziąć pod uwagę podczas podejmowania decyzji związanej z wyborem modelu i długości nart. Optymalna długość nart zależy od następującej kolejności: umiejętności, wagi i siły. Dynastar Race Department ma nadzieję, że zapisane tu informacje będą przydatne.
Powodzenia w wyścigach!

## SUPER SKULL SPIN

A competitive edge from the cutting edge. The Super Skull SPIN is a super lightweight helmet designed specifically for elite-level racing, meeting the demands and rigors of those at the cutting edge of their sport. The Super Skull SPIN delivers protection for those who demand nothing but the safest, lightest protection. From the very beginning, the Skull family has been about one thing above all else: supporting the safest, fastest way down on a race run. Certified for race use by the FIS, the Super Skull SPIN provides performance protection at a weight previously unimaginable thanks to a carbon fiber shell.

## SKULL DURA COMP SPIN

The Skull Dura Comp SPIN introduces Race Lock, an innovation to allow racers to lock the helmet tightly to their head for absolute security at very high speeds. The turnwheel adjuster sits in line with the helmet shell and does not interfere with a race tuck. Updated this year to include Pull Release ear pads that can easily be removed in an emergency, medical can easily and safely remove the helmet if an injury is sustained. A new shape for the helmet liner ensures an even fit around the whole head, with no pressure points. A Fidlock® buckle on the chin strap can easily be operated with gloves on and gives a secure fit. The helmet is FIS RH 2013 certified. A VPD deflector panel protects against repeat gate impacts; aramid enhances penetration protection and a multi-impact EPP liner features.

**11013_1001** MAXILLA BREAK AWAY SYSTEM
**11013_1002** MAXILLA BREAK AWAY SYSTEM

TECHNICAL FEATURES_

- Giant Slalom, Super G and Downhill race helmet meeting FIS RH2013 certification and featuring the innovative Race Lock security system.
- Developed according to the POC Whole Helmet Concept and featuring a multi-impact EPP liner, a durable ABS/PC outer shell, a VPD deflector panel and an aramid anti-penetration layer.
- Helmet liner shaped to provide an even fit around the whole head with no pressure points.
- Pull-Release ear pads can be easily and safely removed after an accident
- Ear chambers designed for minimal impact on balance and hearing.
- Fidlock buckle can easily be operated with gloves on and gives a secure fit.
- Compatible with the POC Maxilla Breakaway chin guard (sold separately)
- Silicone pad technology, SPIN (Shearing Pad INside).
- Fixed goggle clip

## SKULL DURA X SPIN

The Skull Dura X SPIN introduces Race Lock, an innovation to allow racers to lock the helmet tightly to their head for absolute security at very high speeds. The turnwheel adjuster sits in line with the helmet shell and does not interfere with a race position. Updated this year to include Pull Release ear pads that can easily be removed in an emergency, so medical staff can easily and safely remove the helmet if an injury is sustained. The helmet features a multi-impact EPP core and a highly durable ABS/PC outer shell, as well as SPIN silicone pad technology. A Fidlock buckle on the chin strap can easily be operated with gloves on.

## SKULL DURA JR

NEW

The Skull Dura JR gives junior racers the protection and safety technologies designed to keep them safe as they strive to develop their abilities and reach the pinnacle of the sport. Featuring many of the safety technologies found in the Skull Dura X adult helmet, the Skull Dura JR ensures younger skiers benefit from protection tailored for racing. Race Lock, a multi-impact EPP liner and durable ABS/PC outer shell keep younger skiers protected in this FIS RH 2013 certified race helmet.

## SKULL X SPIN

Many ski racers have begun their careers wearing the Skull X thanks in part to its trusted multi-impact protection and penetration-proof ventilation construction. We've updated this classic to include our Silicone pad technology SPIN (Shearing Pad INside). The ear pads and chin strap have also been updated to further improve comfort and functionality.

# ARTIC SL 360° SPIN

The Artic SL 360° SPIN is an updated version of the Artic SL that now includes a 360° fit system for a more secure fit.Developed in line with the POC Whole Helmet Concept, the helmet features numerous POC protective technologies including VPD inserts at the back of the helmet to deflect energy away from the helmet liner and user in a fall. A multi-impact EPP liner further extends protection, while a tough and resilient ABS shell enhances durability. Ventilation is fully adjustable, and the helmet comes complete with the Maxilla Breakaway chin bar and a new Fidlock buckle that is easy to operate with gloves on.

## ZONULA CLARITY COMP

NEW

With an exceptionally wide field of view, bio-based frame materials and easily interchangeable lenses, the Zonula Clarity Comp combines sustainable credentials with exceptional vision for competition. Frame outriggers make it easy to handle the goggle and allow the lenses to be popped out so they can be changed in an instant. Simply by squeezing the outriggers to form a gap between the frame and the lens, the lenses can be removed simply by holding the edges, limiting the risk of damage to the surface. The frame is constructed from 50% bio-based TPU to minimise the environmental impact of the goggles. Clarity Comp lenses, developed in partnership with Carl Zeiss, ensure optimum vision while competing.

MOLDANITE GREEN/ SPEKTRIS BLUE

**_8428**
URANIUM BLACK / LOW LIGHT

TECHNICAL FEATURES_

- Frame outriggers make changing lenses easy
- Extra-wide field of view
- 47% bio-based frame materials by weight
- Toric lens shape
- Clarity Comp lens from Zeiss
- Triple-layer face foam enhances comfort
- High-density strap with silicone grip gives security
- Ri-Pel lens treatment protects from oil, dirt and water
- Anti-fog treatment (on inner lens)
- Anti-scratch treatment (on outer lens)
- Soft goggle pouch included
- Extra lens included
- Conforms to CE EN174:2001 and ASTM F659

## FOVEA CLARITY COMP

Designed for the intensity of competition, the Fovea Clarity Comp gives a large field of view and features high-density foam to reduce airflow at very high speeds, giving unparalleled competition vision. Clarity Comp lenses developed in partnership with optical industry leaders Carl Zeiss work to enhance vision for short periods of intensity, where nothing less than perfect sight will do. Unique Spektris mirror coatings complement the lens base tint and are optimised for best performance in different weather conditions.

URANIUM BLACK/ LOW LIGHT

TECHNICAL FEATURES_

- Clarity Comp lens with base tint maximized for contrast and competition
- Unique Spektris mirror coating
- Designed for a large field of view
- High density ventilation padding prevents too much airflow inside the goggle at very high speeds.
- At lower speeds, airflow may be stopped entirely, increasing the chances of fogging.
- Includes spare Clarity Comp lens for low light condition
- Triple layer foam for comfort
- Anti-fog treatment
- Anti-scratch treatment
- Toric lens shape

# RETINA BIG CLARITY COMP

The Retina Big Clarity Comp ski goggles provide a huge field of view, helping you react to potential hazards more quickly. A malleable PU frame and triple-layer face foam ensures the goggles conform to different face shapes, and remain flexible in the coldest temperatures. Clarity Comp lenses are developed specifically for the intensity of competition. The lenses use specific and highly advanced tints to optimize the color spectrum for better vision. Unique Spektris mirror coatings have been engineered to complement each Clarity lens and are applied for three distinct weather conditions: sunny; partly sunny and overcast. An extra Clarity Comp No Mirror lens is included.

# BODY ARMOR

POC's body armor is highly impact absorbent, lightweight and adapts to create an individual fit. We developed our body armor to provide the highest levels of protection with complete freedom of movement, and no compromise between safety and comfort. The efficient ventilation technology keeps you cool so you can focus on the challenge ahead of you.

## VPD SYSTEM BACK

COLORS_

_**1002** URANIUM BLACK

BACK_

PRODUCT DESCRIPTION_

The VPD System Back is an extremely ventilated and lightweight back protector with easily adjustable shoulder and waist strap anchor points, making it even easier to find the perfect fit. By being able to easily change the attachment points of the shoulder straps and waistband, any user can feel comfortable and ensure that their protection fits properly and securely. VPD is malleable and adapts to the shape of the wearer's body, but when exposed to impact the material stiffens and has extreme impact absorption properties. This protector, certified to EN1621-2 Level 1, provides extreme ventilation and maximum comfort. Its minimalist shape provides protection where it is needed without the addition of unnecessary bulk.

TECHNICAL FEATURES_

- Adjustable carrying system for a personalized fit
- Lightweight
- Highly ventilated
- Minimalist shape
- Pre-shaped for an ergonomic fit

SIZES **S, M, L**
ARTICLE NUMBER **20620**

## VPD SYSTEM VEST

COLORS_

_**1002** URANIUM BLACK

BACK_

PRODUCT DESCRIPTION_

The VPD System Vest places our best-ventilated and lightest back protection plate in a vest, for extra comfort, security and practicality. A dual-sided waist adjustment system does not cross the front zip, meaning a wearer only has to adjust for fit once, rather than each time the vest is put on.

The vest is constructed from a highly ventilated four-way stretch compression mesh for added support and features a zipped front opening and a hanger loop to the rear for easy storage.

The VPD System back protector is certified to EN1621:2, level 1.

TECHNICAL FEATURES_

- Certified to EN1621:2, level 1
- Features our best-ventilated and lightest back protection plate
- Ventilated compression mesh
- Single-time waist adjustment system does not interfere with front zip
- Rear hanger loop
- Full-length front zip

SIZES **S,M,L**

## SPINE VPD SYSTEM COMP BACK

COLORS_

_**1002** URANIUM BLACK

EXTRA_

BACK_

PRODUCT DESCRIPTION_

The Spine VPD System Comp Back vest is a dedicated back protector for ski racers or skiers who want the ultimate performance back protector. Based on POCs, VPD (Visco-elastic Polymer Dough) technology, which adapts with body heat to fit each unique user, the molded back protector is extremely flexible and conforms to the highest, Level 2 (1621-2) certification. The woven fabric uses monofilament threads and a Kevlar reinforced barrier around the spine, which provide maximum abrasion resistance. The design also provides a highly versatile protector with extreme ventilation channels and flexibility ensuring that the vest is extremely comfortable to wear all day. Designed with a race fit, the protector benefits from low bulk for a closer fit.

TECHNICAL FEATURES_

- Extremely flexible molded VPD back protector
- Ventilation channels for optimized moisture control
- Kevlar reinforced anti-penetration protection around the spine
- Race fit with glued edges for less bulk
- Optional adjustable waistband

SIZES **S,M,L REGULAR**
ARTICLE NUMBER **20610**

## VPD AIR COMP BACK JR

FRONT_

BACK_

COLORS_

_**1002** URANIUM BLACK

PRODUCT DESCRIPTION_

The Spine VPD Air Comp Back Jr vest is a dedicated back protector for younger ski racers who need the ultimate performance back protector. Based on POCs patented VPD (Visco elastic Polymer Dough) technology, which adapts with body heat to fit each unique user, the 3 layer back protector is extremely flexible and conforms to the EN1621-2 Level 1 certification.

The design also provides a highly versatile protector with ventilation channels and flexibility which ensures that the vest is extremely comfortable to wear all day. Designed with a race fit the protector also features low bulk thanks minimized use of fabric.

TECHNICAL FEATURES_

- Extremely flexible and light VPD padding
- Race fit
- Optional waist band
- EN 1621-1 certified shock absorption
- Ventilation system constructed within each layer to optimize moisture management and comfort

_**8407** NATRIUM BLUE/HYDROGEN WHITE

PRODUCT DESCRIPTION_

The Skin GS speed suit utilizes a highly durable fabric to minimize snagging and piling damage from Velcro fastenings on shin and forearm protectors. The new, more durable, fabric conforms to FIS regulations and can be used in FIS-sanctioned competition.

Protectors are built into the skin suit on the arms, hips and legs. Further protection can be worn underneath, as the skin suit is shaped to work seamlessly with a POC VPD back protector or the VPD Air Comp Jacket. Both the Resistance Layer and Base Armor protective base layers with Dyneema are designed to fit under the Skin GS to enhance protection from lacerations.

Grippers at the lower leg openings and longer sleeves with thumbholes work to keep the suit in place as the body moves.

TECHNICAL FEATURES_

- FIS-approved speed suit.
- More durable fabric less likely to be damaged by Velcro fastenings on shin or forearm protectors.
- Integrated protectors on arms, hips and legs
- Designed to fit with POC Base Armor and VPD back protectors
- Grippers at the leg openings and longer sleeves with thumbholes keep the suit in place.
- DWR treatment for protection from light snow or rain showers

PRODUCT DESCRIPTION_

The Skin GS JR is a speed suit for junior ski racers that works to enhance every race run. Constructed from the same highly durable fabric as used in the FIS-approved Skin GS, the junior skin suit is less likely to be damaged by tough Velcro fastenings on shin and forearm protectors.

Protectors are built into the skin suit on the arms, hips and legs. Further protection can be worn underneath, as the skin suit is shaped to work seamlessly with a POC VPD back protector or the VPD Air Comp Jacket. Both the Resistance Layer JR and Base Armor JR protective base layers with Dyneema are designed to fit under the Skin GS to enhance protection from lacerations.

Grippers at the lower leg openings and longer sleeves with thumbholes work to keep the suit in place as the body moves.

TECHNICAL FEATURES_

- Speed suit for junior ski racers in highly durable fabric to minimize damage from Velcro fastenings on shin and forearm protectors.
- Integrated protectors on arms, hips and legs.
- Designed to fit with POC Base Armor and VPD back protectors
- Grippers at the leg openings and longer sleeves with thumbholes keep the suit in place.
- DWR treatment for protection from light snow or rain showers.

## VPD AIR COMP JACKET

FRONT_

SIDE_

COLORS_

_**1002** URANIUM BLACK

PRODUCT DESCRIPTION_

When freedom of movement matters most, and when reliable protection is a must, the VPD Air Comp jacket delivers. Designed for a seamless fit under a speed suit, the half-body torso maximizes freedom of movement and minimizes bulk. Eight separate VPD pads are strategically placed for ultimate protection across the arms and shoulders, giving freedom of movement without leaving any part of the arm exposed.

Protection on the lower arms is removable, meaning the jacket can be used by riders who prefer hard-shell protectors on top of the speed suit.

Longer arms with thumbhole openings keep the jacket in place, and mesh construction in the armpit provide maximum breathability.

TECHNICAL FEATURES_

- Zipped front opening
- Upper arm protection: A sandwich construction of VPD Air and EVA
- Lower arm protection: A sandwich construction of VPD Air and EVA. Lower arm protector is removable if user prefers to ride with hard-shell protectors on top of speedsuit
- Shoulder blade protection: VPD Air protects from impacts with gates
- Hanger loop inside neck
- Short length jacket to ensure maximum freedom of movement and minimum bulk
- Thumb holes to keep jacket and protectors in place
- Mesh material in armpit for maximum breathability

SIZES **S, M, L**
ARTICLE NUMBER **20510**

## VPD AIR COMP JACKET JR

FRONT_

SIDE_

COLORS_

_**1002** URANIUM BLACK

PRODUCT DESCRIPTION_

When freedom of movement matters most, and when reliable protection is a must, the VPD Air Comp jacket delivers. Specially constructed for junior ski racers, aged around 10-14 years, the VPD Air Comp Jacket Jr features eight separate VPD pads carefully placed for complete protection across the arms and shoulders and complete freedom of movement.

Protection on the lower arms is removable, meaning the jacket can be used by riders who prefer hard-shell protectors on top of the speed suit.

Longer arms with thumbhole openings keep the jacket in place, and mesh construction in the armpit provide maximum breathability.

TECHNICAL FEATURES_

- Zipped front opening
- Upper arm protection: A sandwich construction of VPD Air and EVA
- Lower arm protection: A sandwich construction of VPD Air and EVA. Lower arm protector is removable if user prefers to ride with hard-shell protectors on top of speedsuit
- Shoulder blade protection: VPD Air protects from impacts with gates
- Hanger loop inside neck
- Short length jacket to ensure maximum freedom of movement and minimum bulk
- Thumb holes to keep jacket and protectors in place
- Mesh material in armpit for maximum breathability

## RACE JACKET

COLORS_

_**1002** URANIUM BLACK

BACK_

PRODUCT DESCRIPTION_

The Race Jacket is built for function and practicality while training and before racing. Constructed from a softshell fabric with a waterproof membrane providing 5000mm water column, the jacket features reinforced fabric on the shoulders to enhance durability and to minimize damage caused by carrying skis.

Designed to fit over the Skin GS race suit, the jacket sits snugly as an outer layer and is cut with a race position, making it ideal for use both on training runs and between runs.

Constructed from material chosen for its durability against damage caused by Velcro, the jacket is built to withstand the damage so often caused by Velcro fastenings on body armor.

TECHNICAL FEATURES_

- Jacket for use when training – fits over the Skin GS speed suit, providing extra warmth without impacting freedom of movement or increasing bulk.
- A soft lycra lining on the inside of the collar and a brushed inner enhance comfort and warmth. Gripper elastic on the back hem keeps the jacket securely in place.
- Two zipped hand pockets and a zipped chest pocket are included for secure storage of gloves and lift cards or credit cards.
- Material features a waterproof TPU membrane with 5000mm water column, 4-way stretch and Velcro resistance for enhanced durability and functionality, as well as shoulder reinforcements to minimize damage caused by carrying skis.

SIZES **S, M, L, XL**
ARTICLE NUMBER **51024**

## RACE SHORTS

COLORS_

_**1002** URANIUM BLACK

BACK_

PRODUCT DESCRIPTION_

The Race Shorts are built for extra warmth while training or before racing. With features such as full-length zippers on each leg, it's easy to take the shorts on and off without needing to adjust ski boots.

The shorts are constructed from a softshell fabric and feature reinforcements with a Vectran blend on the outer thigh to enhance durability and protection against damage from ski edges.

The shorts provide a snug fit and are cut lower on the front of the waist and higher at the rear for enhanced comfort while in a traditional race position. Durable metal adjustment buckles are included on the waistline so any user can find a precise fit.

TECHNICAL FEATURES_

- Insulating shorts for use when training – fit over the Skin GS speed suit, providing extra warmth without affecting freedom of movement or increasing bulk.
- Material features a waterproof TPU membrane with 5000mm water column, 4-way stretch and Velcro resistance for enhanced durability and functionality. Thigh reinforcements blend minimize damage from skis.
- Waistband features a soft lining and is cut lower at the front and higher at the back for enhanced comfort while in the race position. Metal buckles make it easy to find the right fit.
- Zippers the full length of the shorts make it easy to get them on and off without removing ski boots.

## FRISSON PANT

NEW

COLORS_

_**1002** URANIUM BLACK

BACK_

PRODUCT DESCRIPTION_

The Frisson pant ensures you keep your focus on the excitement ahead. Giving warmth and protection while training or pre-race, the pants give a comfortable fit over a speed suit. Reinforced fabric on the outer thighs and at the lower calf enhance durability and minimises damage from repeat knocks against the gates or by skis. Full-length zippers make it easy to get the trousers on and off over ski boots. Cut for a race tuck, the trousers are lower at the front and higher at the back for extra comfort. The trousers are water resistant and feature snow gaiters for a close fit against ski boots and to keep snow out. A card pocket on the waist is ideal for a lift pass, and a zipped pocket on the thigh keeps a smartphone secure.

TECHNICAL FEATURES_

- Softshell pant from majority recycled fabrics
- Brushed inner for warmth.
- Highly durable fabric with 4-way stretch is resistant to piling from Velcro fasteners on armor
- Reinforced zones on outer thigh and lower calf enhance durability.
- A TPU membrane with 5000mm water column provides water resistance
- Waistband features a soft lining and is cut lower at the front and higher at the back for enhanced comfort while in the race position
- Velcro waist adjusters on the rear make it easy to find a secure fit
- Full-length zippers make it easy to get the trousers on and off over ski boots

## W´S LOFT PARKA

Minimise your impact on the mountains. The W's Loft Parka gives warmth and protection with a lower impact on the environment. Sustainable, bio-based outer fabrics pair with recycled fabrics and insulation for minimal environmental impact, yet with maximal impact on how you experience the environment.

## M´S LOFT PARKA

COLORS_

_**1442** MOLDANITE GREEN

_**1002** URANIUM BLACK

BACK_

PRODUCT DESCRIPTION_

The POC Loft Parka provides comfort, warmth and protection from challenging weather conditions. Innovative recycled T-Core Circular Fill loose-fiber synthetic insulation gives down-like warmth, even when wet. Built for the depths of winter, all zippers are easily operable while wearing gloves. Pre-bent sleeves give improved freedom of movement, and large mesh pockets have room for goggles, gloves and more. The adjustable hood with reflective logo provides protection from the elements and improves visibility. The adjustable hood fits over a helmet, giving functionality both on and off the slopes. Other practical features include reinforced shoulders for durability when carrying skis, and zipped gussets with laser-cut ventilation on the collar to give more space and enhanced temperature control around the neck.

TECHNICAL FEATURES_

- Constructed using a multi-layer DWR treated Nylon with 10 000 mm water column
- Completely recycled T-Core Circular Fill loose fiber insulation that retains its warmth even when wet.
- Easy care padding – retains its loft after wash and tumble dry
- Zipped gussets with laser-cut ventilation on the collar for better airflow control
- Adjustable and helmet-compatible hood with reflective POC logo
- Reinforced shoulder areas for durability when carrying skis

## W´S LOFT PARKA

NEW

COLORS_

_**1042** GRANITE GREY

_**1002** URANIUM BLACK

BACK_

PRODUCT DESCRIPTION_

Developed for women and with a focus on sustainability, the W's Loft Parka is the ultimate bad-weather coat for the mountainside. With a bio-based outer fabric softer than an equivalent oil-based Nylon, the coat gives more freedom for the recycled T-Core Circular Fill insulation to expand and trap more warmth. The coat also features a 100% recycled taffeta lining, and the outer fabric is a bio-based PU. Ideal for long days on the mountain, the coat features a helmet-compatible hood with an adjustable brim wire and one-hand adjuster, as well as zipped perforated gussets on the collar for extra ventilation. A zipped pocket on the left arm keeps a ski pass secure; large mesh inner pockets give great storage and fleece lined zipped outer pockets keep hands warm.

TECHNICAL FEATURES_

- Waterproof outer material with 10000mm water column and Ripstop
- 100% pre-consumer recycled taffeta lining
- 100% post-consumer recycled T-Core Circular Fill loose fiber insulation
- 18% bio-based PU laminate
- Fluorocarbon-free DWR finish and waterproof zip
- Cordura® reinforced shoulder
- Zipped ski pass pocket on left arm
- Helmet-compatible hood with one-hand size adjuster and adjustable brim wire
- Large fleece lined zipped outer pockets and mesh inner pockets
- Lycra inner cuffs and Velcro-adjusted outer cuff
- Hanger loop on outside in orange
- Silicone dipped long zipper pulls – easy to grip with gloves on
- Ventilated zipped gusset on collar

## MENTOR COAT

NEW

COLORS_

_**1002** URANIUM BLACK

BACK_

PRODUCT DESCRIPTION_

Ski coaches' demands from protection differ from racers. Standing on the mountainside in all conditions for large parts of the day calls for warmth, weather protection and flexibility – all delivered in the Mentor Coat. The fully waterproof coat features an adjustable and helmet-compatible hood, a zipped ski pass pocket on the left arm, and zipped seams on the sides of the coat, make skiing easy. Shoulders are reinforced with Cordura® give extra protection from damage while carrying skis and the coat features a radio hook and large pockets to carry vital items for a day's training. The hood features an adjustable wire brim in the peak, all zips feature large pullers with silicone so they're easy to use with gloves on and Velcro adjusters on the cuffs ensure a close fit.

TECHNICAL FEATURES_

- Fully waterproof jacket for ski coaches
- 2-layer Polyamide with 10000mm water column
- Breathable: moisture vapour permeability of 10000gsm/24hr
- Fluorocarbon free DWR finish
- Cordura® reinforced shoulder
- Radio hook
- Large fleece lined zipped outer pockets
- Large mesh inner pockets
- Helmet-compatible hood with one-hand size adjuster
- Hood brim with adjustable wire
- Fleece lined collar
- Zipped ski pass pocket on left arm
- Orange hanger loop
- Silicone dipped long zipper pulls – easy to grip with gloves on
- Zips on side seams give freedom of movement
- Highly durable YKK Vislon® zippers

## LOFT PARKA JR

FRONT_

BACK_

COLORS_

_**1002** URANIUM BLACK

PRODUCT DESCRIPTION_

Keep kids warm, cozy, dry and protected in the Loft Parka JR. Constructed from a double-layer DWR treated fabric with 10 000mm water column and featuring our fully recycled T-Core Circular Fill synthetic fiber insulation, the coat works to keep a child warm and dry.

The coat is designed for flexibility and can be used for skiing or on days off the piste. Features such as reinforced shoulders for carrying skis, zipped gussets on the collar and a hood that fits over a helmet enhance functionality for skiing.

Other features, including reflective detailing on the front and rear, elastic inner cuffs and easily adjustable sleeve openings give freedom, comfort and security.

TECHNICAL FEATURES_

- Highly insulated children's parka featuring our synthetic loose fiber insulation T Core Fill and constructed from water-resistant fabric with a 10 000mm water column.
- Two large zipped hand pockets and a secure inner chest pocket give plenty of storage. All zips can easily be operated while wearing gloves.
- Reflective detailing on the front, back and hood makes it easier to spot kids in low light.
- The parka is made for movement, both while skiing or during other activities. Pre-bent sleeves, soft elasticated inner cuffs and adjustable sleeve openings give a comfortable fit that maintains warmth and makes it easy to move.
- Reinforced shoulders prevent damage from carrying skis.

## LINER JACKET JR

FRONT_

SIDE_

COLORS_

_**9050** FLUORESCENT ORANGE

_**1040** ALLOY GREY

PRODUCT DESCRIPTION_

A junior liner jacket for flexibility and warmth as the temperature drops. Designed so it can be worn either as a mid layer or an outer layer, the jacket is constructed from a lightweight windproof fabric with ripstop and a fluorocarbon-free DWR treatment.

As a very lightweight coat, the jacket will never feel like a burden for a child. Thanks to the innovative T-Core Circular Fill loose-fiber synthetic insulation, the jacket will keep a kid warm, even if the insulation gets wet.

The jacket has a removable hood both that not only gives great freedom and flexibility for how to wear the jacket, but also works to improve safety, as it will pop off if it gets caught on something.

Grey reflective logos to the front and rear help ensure kids are easier to spot in low light.

TECHNICAL FEATURES_

- Versatile liner jacket in lightweight windproof fabric with ripstop construction and a fluorocarbon-free DWR treatment. Can be worn by itself or as a mid layer.
- Insulated with recycled T-Core Circular Fill, a loose-fiber synthetic insulation that maintains warmth even when wet.
- Easily detachable hood will pop off if it gets stuck on something, enhancing safety and freedom for a child.
- Two zipped hand pockets give plenty of secure storage. An elasticated lower hem, hood and sleeve endings enhance coziness.
- Name tag is included on the inner.
- Grey reflective logos further enhance visibility. Our research shows grey is the most effective reflector so helps ensure kids are seen earlier.

_**1002** URANIUM BLACK

PRODUCT DESCRIPTION_

The Race Backpack 70L is designed to be the go-to backpack for every adult alpine ski racer, with space for all the kit needed for training or race day. Constructed from very durable and waterproof materials, the bag is designed to last.

Functional features like a zip-down panel that can be stood on while changing into ski boots, wide openings and storage specifically tailored for ski race gear make the backpack ideally suited to the ski racer.

Wide shoulder pads, an adjustable and removable sternum strap and an adjustable waistband ensure it's easy for any wearer to find a secure and comfortable fit. All zippers can easily be operated while wearing gloves.

TECHNICAL FEATURES_

- 70L backpack for the alpine ski racer, constructed in durable and hard-wearing 600D Polyamide weave with a Polyurethane coating to withstand frequent heavy use.
- Designed for carrying all ski gear and features separate space for ski boots, a protective pocket for goggles and side pockets big enough for shin protectors.
- Large zippers are easy to operate with gloves on, and open wide for easy access to the entire bag.
- Thermo-molded back plate, strong and wide shoulder straps, and adjustable waist and sternum straps ensure the bag is comfortable to wear.

## COALESCE VEST

NEW

COLORS_

_**1442** MOLDANITE GREEN

BACK_

PRODUCT DESCRIPTION_

Lightweight, low bulk and still warm, the Coalesce Vest is the ideal garment for extra warmth in all conditions. Thin enough to be worn under a shell coat, and warm enough to be worn on its own, the vest gives great flexibility. A new approach to the elasticated arm openings gives a cleaner look on the outside yet ensures the vest grips well to and hugs the body. Constructed with a lightweight ripstop fabric outer, the vest is highly durable. A fluorocarbon-free DWR treatment keeps light rain showers out. Fully recycled T-Core Circular Fill loose fiber synthetic insulation sits in narrow channels on the vest and provides exceptional warmth for its bulk. Two large pockets keep hands warm, and a zipped inside pocket keeps valuables secure. A reflective hanger loop on the back supports improved visibility in low light.

TECHNICAL FEATURES_

- Insulating vest can be used on its own or under a coat
- Fully recycled T-Core Circular fill loose fiber synthetic insulation
- Mini Ripstop outer fabric
- Taffeta lining
- Fluorocarbon free DWR treatment
- Two large warming hand pockets
- Zipped inner chest pocket
- Snug fit
- Hidden elastic arm openings keep warmth in and give good grip
- Elasticated drawstring at waist can be operated with one hand
- High collar for extra warmth
- Reflective hanger loop
