# READY TO ATTACK

Welcome to HEAD Racing 2012/2013. This brochure contains products «normal» skiers will never see, never touch, never ski. The equipment on the following pages is developed for and by some of the fastest athletes that ever lived. You are among the few to directly profit from their know-how and commitment - and might beat them to the finish line when your time has come.

## THE SPEED OF LIGHT: HEAD KERS

### HOW IT WORKS.

Skis experience maximum flex at the end of a turn. At this moment, an active microchip releases energy into the piezoelectric fibers of the tail - with electricity travelling at the speed of light, this happens in fractions of a second - the tail of the ski then stiffens up, immediately increasing rebound for maximum acceleration at the end of the outturn.

### ON FIRE.

KERS Technology works a little like an afterburner that provides additional acceleration by stiffening the tail of the ski in the end of a turn - capturing speed for the next one. HEAD KERS is an electronic, fully automatic, integrated system.

# FREEFLEX PRO

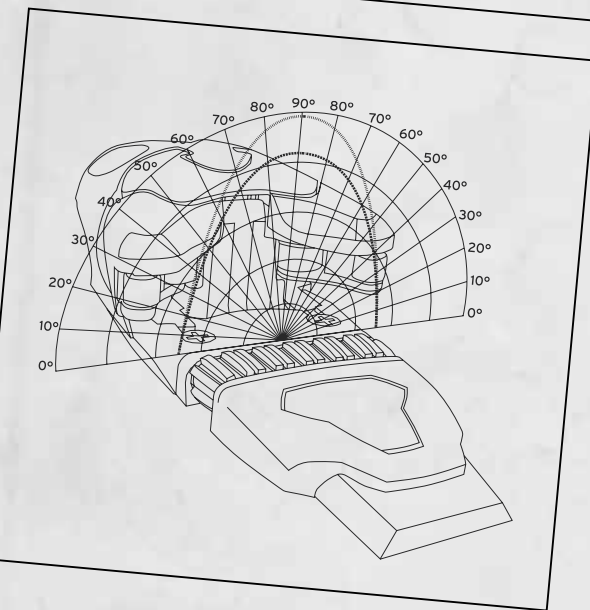

## FREEFLEX PRO

Presenting the innovative Freeflex Pro System we focus on a new level of performance: Due to reduced stand height the gliding band is now much closer to the ski boot and our free-gliding heel allows the ski to flex unimpeded. This ensures consistent release values, reduced risk of injury and even more power and precision steering your skis.

## RACE PRO HEEL

The reduced stand height corresponds to the FIS regulations. This gave us the opportunity to redesign the heel track, making it 1mm higher and 8mm wider for even more stability and direct power transmission. Moreover, increased size of the gliding inserts reduces friction and provides even smoother and more consistent release performance in all skiing situations and conditions.

## RACE DIAGONAL

Diagonal Toe tuned for racing purposes. Due to its higher release force vertically than horizontally, it holds up to the high backward lean forces in racing.

TECHNOLOGY:

## RAPTOR TECHNOLOGY

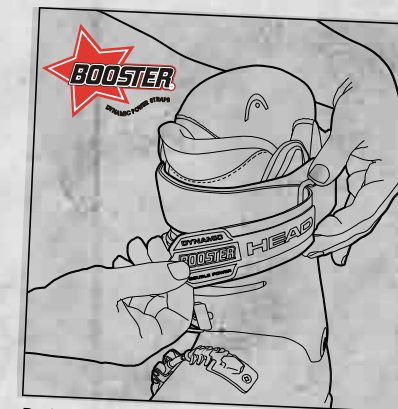

### SPINEFLEX BUCKLES

Spineflex is a revolutionary buckle concept with a flexible element and a constant closure point for optimal foot wrapping without pressure points.

### DOUBLE POWER BOOSTER VELCRO

The strap of the Double Power Booster Velcro works as a double pulley for better closure and a tighter wrapping on the cuff. The elastic Booster Strap allows more dynamical response of the boot. The result: more precise transmission and faster ski reaction. (Manufactured under license from Skimetrix Ltd.)

Protected under one or more of the following:  
 European patent N. 108766  
 US patent N. 6.026.594  
 Canadian patent N. 2.335.698

# ZIP IT UP

## REBELS' TRAVELBAG

- Big wheelie bag for ski pros and world travellers.
- Long red stowable pull handle for easy carrying.
- Big zippered compartment in top part, two zipper compartments in lower part.
- Large additional compartment at the top.
- Special base fabric.
- Padded heavy-duty casing.
- Red lining.

**DIMENSIONS:** 84x34x40 cm | **VOLUME:** 74 l | **ART.N°:** 383502

## REBELS' BACKPACK

- Daypack for freeskiers with integrated molded and fleece lined goggle pocket.
- Anatomically designed back padding with fully adjustable padded dorsal strap system.
- Water and dirt repellent bottom fabric.
- 4 diagonal straps for ski, snowboard, snowshoes, ice axe, and poles.
- Red lining.

**DIMENSIONS:** 32x49x18 cm | **VOLUME:** 18 l | **ART.N°:** 383532

## REBELS' RACING BACKPACK

- Big backpack for racers, coaches and tech-reps.
- Anatomically designed back padding with fully adjustable padded dorsal strap system.
- Various utility compartments.
- Red lining.

**DIMENSIONS:** 40x54x28 cm | **VOLUME:** 50 l | **ART.N°:** 383632

## REBELS' DOUBLE SKI BAG

- Protective bag for 2 pairs.
- Two wheels for carrying comfort.
- Water and dirt repellent bottom fabric.
- Padded main compartment with two buckled, easy-to-adjust compression straps.
- Red lining.

**DIMENSIONS:** 195x18x28 cm | **VOLUME:** 80 l | **ART.N°:** 383522

## HEATABLE BOOT BACKPACK

- Heated boot backpack.
- Comfortable handles and stowable padded backpack straps.
- Various small zippered pockets for goggles, socks, bottles, gloves, clothing.
- Adjustable helmet holder.
- Four way controller switch with house (110/V or 220/V) DC plug in.
- Automotive cable plug in (12/V) AC.
- Three temperature settings: Hot (70°C/150°F), Dry (60°C/130°F) or Warm (50°C/122°F).

**DIMENSIONS:** 25x43x38 cm | **VOLUME:** 40 l | **ART.N°:** 383542
