OFERTA RACE

2017 / 2018

Frida HANSDOTTER
Winner of the World Cup Slalom 2016

Henrik KRISTOFFERSEN
Winner of the World Cup Slalom 2016

SZANOWNI PAŃSTWO

Zapraszamy do zapoznania się z ofertą ROSSIGNOL RACE 2017/18 na sprzęt i akcesoria marki ROSSIGNOL. Nasza oferta skierowana jest do klubów, zawodników i szkół narciarskich, które nastawione są na szkolenia sportowe i tym samym wymagają najlepszego sprzętu dla użytkowników.

OFERTA, CENY RACE, ZAMÓWIENIA RACE

W załączonej ofercie znajdą Państwo:

- Produkty z linii RACE, przeznaczone do sportu wyczynowego we wszystkich kategoriach wiekowych. Oferta zawiera specyfikację techniczną i opis produktów RACE.
- Ceny produktów z linii RACE skalkulowane są na poziomie sugerowanej ceny detalicznej, pomniejszonej o 20%. Cennik RACE dostępny jest na stronie www.pmsport.com.pl w zakładce RACE, hasło „hero”.

REALIZACJA ZAKUPÓW Z OFERTY RACE, CENY, OFERTY DODATKOWE, PROMOCJE:

1. Zamówienie składane przez KLUBY, TRENERÓW, RODZICÓW lub ZAWODNIKÓW na produkty RACE do dnia 29 marca 2017r. czyli tzw. PREORDER będzie realizowane z rabatem 10% od cen RACE.

2. Zawodnik, który złoży w terminie tj. do 29.03.2017r. zamówienie RACE PREORDER, przy zakupie zamówionych produktów otrzymuje RACE VOUCHER, ważny na produkty ROSSIGNOL, LANGE, DYNASTAR, POC. RACE VOUCHER może być zrealizowany w wybranych sklepach, obsługujących program RACE. Wartości RACE VOUCHERÓW: zakupy z zam. RACE PREORDER o wartości min. 2500 zł - Voucher 200 zł, o wartości min. 4000 zł - 400 zł. RACE VOUCHER może być zrealizowany na zakupy produktów spoza zamówienia RACE PREORDER. Szczegółowe zasady promocji dostępne w sklepach, obsługujących program RACE i na stronie www.pmsport.com.pl

SKŁADANIE I REALIZACJA ZAMÓWIEŃ RACE

• Obsługą zamówień RACE będą zajmowały się sklepy partnerskie, których lista wraz z osobami kontaktowymi dostępna będzie na stronie www.pmsport.com.pl w zakładce RACE, hasło „hero”.

• Formularze zamówień RACE dostępne będą na stronie www.pmsport.com.pl w zakładce RACE, hasło „hero”.
Warunkiem realizacji zamówienia RACE jest przesłanie go do dnia 29.03.2017r na adres mailowy osoby odpowiedzialnej za obsługę programu RACE w PM SPORT (dane w ofercie RACE) lub na adres mailowy sklepu partnerskiego.
OFERTY SPECJALNE, PROMOCJE, OFERTY DLA KLUBÓW.

Przy IMIENNYM zamówieniu dwóch par nart i więcej dla JEDNEGO zawodnika istnieje możliwość zakupu butów narciarskich z rabatem 25% od ceny RACE. Promocja będzie honorowana na podstawie imiennej listy zawodników przedstawionej w terminie składania zamówień przedsezonowych.

• WARUNKI WSPÓŁPRACY Z KLUBAMI NARCIARSKIMI:

Kluby zainteresowane nawiązaniem szerszej, partnerskiej współpracy prosimy o kontakt. Oferta dla Klubów przewiduje konkretne wsparcie klubu i zawodników indywidualnie ustalone z zarządem Klubu.

• OFERTA DLA TRENERÓW I INSTRUKTORÓW SITN:

Zamówienia imienne „Preorder” składane do 29.03.2017r. przez trenerów grup sportowych, prowadzących szkolenie w ramach klubu, oraz zamówienia aktywnych instruktorów, zatrudnionych w licencjonowanych szkołach narciarskich SITN będą realizowane w cenach RACE z dodatkowym rabatem 25%. Warunkiem skorzystania z oferty jest złożenie zamówienia do 29.03.2017r. oraz pozytywna weryfikacja, poświadczenie przez Klub lub przez licencjonowaną szkołę narciarską zrzeszoną w SITN.

TERMINY, ZAMÓWIENIA

TERMIN SKŁADANIA ZAMÓWIEŃ PRZEDSEZONOWYCH UPŁYWA W DNIU 29.03.2017r

Zamówienia złożone po 29.03.2017r. i w trakcie sezonu 2017/2018 będą realizowane w cenach RACE, aż do wyczerpania zapasów

DZIĘKUJEMY ZA ZAUFANIE!

HERO RACE

Henrik Kristoffersen

CASCADE TIP

Sprawdzona konstrukcja dziobów nart. Kolejne warstwy laminatu nałożone na siebie i przesunięte względem siebie tworzą kaskadę, tak aby zwiększyć elastyczność dziobu i zredukować masę przedniej części. W efekcie dziób narty ma mniejszą bezwładność, nie wpada w drgania o dużej amplitudzie oraz dzięki Rockerowi i konstrukcji PROP TECH w bardzo odczuwalny sposób ułatwia wprowadzenie narty w skręt i sterowanie nartami

PROP TECH TECHNOLOGY

Unikalna konstrukcja przedniej części narty polegająca na wzdłużnym rozcięciu wewnętrznej warstwy sztywnego TITANALu. W ten sposób powstają trzy równoległe szczeliny w części dziobowej narty. Dzięki tej konstrukcji przednia część narty jest dużo bardziej elastyczna poprzecznie, co w połączeniu z ROCKERem daje zawodnikowi radykalne zwiększenie łatwości inicjowania skrętu. Szczególnie odczuwalne na stromym, złodzionym stoku.

POWER TURN ROCKER

Konstrukcja nart sportowych oparta jest na podziale 90 % CAMBER, 10 % ROCKER. Rocker w przedniej części narty jest większy niż w nartach innych producentów. W ten sposób narty ROSSIGNOL uważane są za bardzo przyjazne i pozwalają zawodnikom wszystkich poziomów od juniora do seniora efektywniej gospodarować swoimi siłami podczas trudnych technicznie i wyczerpujących siłowo.

SENSOR INSIDE

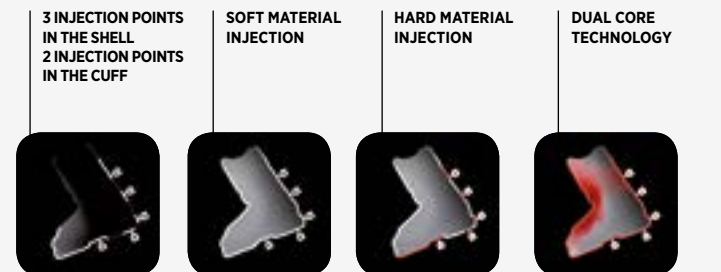

SENSOR INSIDE

A patented technology in World Cup boots. The narrow bootboard enables direct contact between the liner and the shell of the boot for superior power, control and sensations.

NEW TECHNOLOGY DUAL CORE

Nowe buty Hero - technologia DUAL CORE, polega na wstryskiwaniu towarzywa o różnej gęstości w jedną formę. 3 punkty wtrysku w dolnej części, 2 punkty w cholewce. W efekcie otrzymujemy konstrukcję typu SANDWICH, czyli warstwową, z cienkimi warstwami zewnętrznymi twardego materiału, i warstwami wewnątrz wypełnionymi materiałem bardziej elastycznym. Rezultat to optymalizacja pracy buta, bardziej naturalny progresywny flex, wydajniejsze oddawanie energii, tłumienie wstrząsów.

Dual Core Technology is only available on the products with a Dual Core pictogram.

PROTECTIONS

RPG IN&MOTION AIRBAG VEST

Officially approved by the International Ski Federation in June 2015, the In&motion smart wearable airbag has been developed in close partnership with top professional skiers, traumatologists and Rossignol group Athletes, with the goal to increase protection without compromising comfort nor performances. Used in Alpine and Skicross World Cup by racers from 7 different nations with dozens of successful activations, In&motion technology in partnership with Rossignol Protective Gear is the first smart wearable airbag available to public.

BAGS

HERO SKI BAG 4P 230

100% padded - 4 internal compartments with zips, 4 compression straps, rip-proof lining, reinforced ends.

MATERIAL	POLYESTER 600D RIPSTOP
FABRIC COATING	PVC
DIMENSION	L2320 x W390 x H100mm
WEIGHT	3,96 kg

RKDB108

HERO SKI WHEELED 2/3P 195

3 compression straps, adjustable shoulder-strap, rip-proof lining, padded handle, carries 2 or 3 pairs of alpine skis and poles.

MATERIAL	POLYESTER 600D RIPSTOP
FABRIC COATING	PVC
DIMENSION	L2000 x W350 x H220mm
WEIGHT	5,71 kg

RKDB107

HERO SKI BAG 2/3P ADJUSTABLE 190/220

Adjustable shoulder-strap, rip-proof lining, padded handle.

MATERIAL	POLYESTER 600D RIPSTOP
FABRIC COATING	PVC
DIMENSION	L1900 to 2200 x W315 x H315mm
WEIGHT	1,46 kg

RKGB101

HERO PRO SEAT

1 main compartment (maxi boot size 30.5), eyelet for good ventilation. Adjustable strap. Removable seat to rest between the heats!

MATERIAL	POLYESTER 600D
FABRIC COATING	PVC
DIMENSION	L340 x W320 x H500mm
WEIGHT	2,28 kg

RKDB104

HERO CABIN BAG

Two zipped front pockets that will allow an easy access to most needed documents. Bag features two inner compartments separated by a mesh lining to easily carry your gear.

MATERIAL	POLYESTER 600D RIPSTOP
DIMENSION	L560 x W330 x H300mm
WEIGHT	2,82 kg

RKDB110

HERO EXPLORER

2 main compartments, 1 side pocket, 3 wheels, 1 telescopic, 1 foam handle.

MATERIAL	POLYESTER 600D RIPSTOP
FABRIC COATING	PVC
DIMENSION	L790 x W380 x H450mm
WEIGHT	4,64 kg

RKDB111

HERO STARTING BAG

Capacious bag to store all your equipment. Ideal for coaches.

MATERIAL	POLYESTER 600D RIPSTOP
DIMENSION	L720 x W490 x H400mm
WEIGHT	1,15 kg

RKDB102

HERO JUNIOR SKI BAG 170CM

100% padded - 4 internal compartments with zips, 4 compression straps, rip-proof lining, reinforced ends.

MATERIAL	POLYESTER 600D RIPSTOP
FABRIC COATING	PVC
DIMENSION	L1700 x W210 x H210mm
WEIGHT	1,46 kg

RKGB100

HERO BOOT PRO

09

70 liter volume, Adjustable shoulder-straps, 2 stirrups for ski boots when not in use (maxi boot size 30.5), Line cap protector. Front mesh pocket, Hydro pack compatible, small front pocket. Name tag. Full pack access through the front zipper.

MATERIAL	POLYESTER 600D RIPSTOP
FABRIC COATING	PVC
DIMENSION	L520 x W490 x H280mm
WEIGHT	1,12 kg

RKDB105

HERO HEATED BAG

11

Heated Boot bag (220V and 12DC) that will allow you to efficiently dry or warm up your boots at home or while driving to the resort. This bag also features and accessory and helmet top pocket.

MATERIAL	POLYESTER 600D RIPSTOP
FABRIC COATING	PVC
DIMENSION	L450 x W400 x H350mm
WEIGHT	4,64 kg

RKDB100

HERO DUAL BOOT BAG

13

Convenient compact bag for carrying your boots.

MATERIAL	POLYESTER 600D RIPSTOP
FABRIC COATING	PVC
DIMENSION	L490 x W360 x H110mm
WEIGHT	0,75 kg

RKDB109

HERO BOOT PACK

10

Side pockets for boot with liner cap protector. Top mesh pocket to carry a helmet, goggles, gloves and equipment. Full bag access through front zipper. Padded and adjustable shoulder straps. Name tag label.

MATERIAL	POLYESTER 600D RIPSTOP
FABRIC COATING	PVC
DIMENSION	L350 x W250 x H550 mm
WEIGHT	1,12 kg

RKFB100

HERO ATHLETES BAG

12

Two boot compartments on each side, a helmet and goggle pocket, and a large central space for all your clothing. The frontopening pocket can also be used to store tools and small items of equipment. The bag is cleverly designed to be opened on the back and offers easy access to the content. This Race bag will soon become an essential piece of kit for your training sessions.

MATERIAL	POLYESTER 600D RIPSTOP
FABRIC COATING	PVC
DIMENSION	L720 x W490 x H400mm
WEIGHT	1,15 kg

RKDB101

HERO TARPULIN BOOT PACK

14

20 litre volume - High-resistance tarpaulin - Waterproof, reverse zips. Adjustable straps, two hoops for shoes (max. size 30.5). Mesh front pocket. Hydro pack-compatible. Small front pocket.

MATERIAL	HEAVY-DUTY TARPULIN
FABRIC COATING	PVC
DIMENSION	L790 x W380 x H450mm
WEIGHT	4,64 kg

RKGB102

HERO TARPULIN EXPLORER

15

High-resistance tarpaulin - Waterproof, reverse zips, two main compartments, one side pocket, two wheels, padded telescopic handle.

MATERIAL	HEAVY-DUTY TARPULIN
FABRIC COATING	PVC
DIMENSION	L600 x W320 x H320mm
WEIGHT	2 kg

RKGB103

HERO TARPULIN DUFFLE 50L

16

High-resistance tarpaulin. Waterproof, reverse zips. Duffle bag, backpack, detachable straps. Two internal pockets, one internal pocket.

MATERIAL	HEAVY-DUTY TARPULIN
FABRIC COATING	PVC
DIMENSION	L300 x W200 x H610mm
WEIGHT	1,12 kg

ROSSIGNOL RACE DEPARTMENT RECOMMENDATIONS (Skis, Bindings, Skiboos)

General Observations: Ski selection, both model and length, always will be a very personal and, to a large degree, a very subjective decision. The following chart shows some of the common trends we noticed as a result of our ongoing testing, which should be taken into consideration when making model and length decision. Optimal ski length is determined by the following order: ability, weight and strength. The Rossignol Race Department hopes you will find this information useful and wishes you an excellent winter of racing. Good luck at the races!

SZANOWNI PAŃSTWO

Zapraszamy do zapoznania się z ofertą DYNASTAR, LANGE, KERMA RACE 2017/18 na sprzęt i akcesoria marki DYNASTAR, LANGE, KERMA. Nasza oferta skierowana jest do klubów, zawodników i szkół narciarskich, które nastawione są na szkolenia sportowe i tym samym wymagają najlepszego sprzętu dla użytkowników.

OFERTA, CENY RACE, ZAMÓWIENIA RACE

W załączonej ofercie znajdą Państwo:

- Produkty z linii RACE, przeznaczone do sportu wyczynowego we wszystkich kategoriach wiekowych. Oferta zawiera specyfikację techniczną i opis produktów RACE.
- Ceny produktów z linii RACE skalkulowane są na poziomie sugerowanej ceny detalicznej, pomniejszonej o 20 %. Cennik RACE dostępny jest na stronie www.pmsport.com.pl w zakładce RACE, hasło „hero”.

REALIZACJA ZAKUPÓW Z OFERTY RACE, CENY, OFERTY DODATKOWE, PROMOCJE:

1. Zamówienie składane przez KLUBY, TRENERÓW, RODZICÓW lub ZAWODNIKÓW na produkty RACE do dnia 29 marca 2017r. czyli tzw. PREORDER będzie realizowane z rabatem 10 % od cen RACE.

2. Zawodnik, który złoży w terminie tj. do 29.03.2017r. zamówienie RACE PREORDER, przy zakupie zamówionych produktów otrzymuje RACE VOUCHER, ważny na produkty DYNASTAR, LANGE, KERMA. RACE VOUCHER może być zrealizowany w wybranych sklepach, obsługujących program RACE. Wartości RACE VOUCHERÓW: zakupy z zam. RACE PREORDER o wartości min. 2500 zł - Voucher 200 zł, o wartości min. 4000 zł - 400 zł. RACE VOUCHER może być zrealizowany na zakupy produktów spoza zamówienia RACE PREORDER. Szczegółowe zasady promocji dostępne w sklepach, obsługujących program RACE i na stronie www.pmsport.com.pl

RACE Voucher wydawany jest wyłącznie, przy zakupie produktów zamówionych do 29.03.2017 w RACE PREORDER

SKŁADANIE I REALIZACJA ZAMÓWIEŃ RACE

• Obsługą zamówień RACE będą zajmowały się sklepy partnerskie, których lista wraz z osobami kontaktowymi dostępna będzie na stronie www.pmsport.com.pl w zakładce RACE, hasło „hero”.

• Formularze zamówień RACE dostępne będą na stronie www.pmsport.com.pl w zakładce RACE, hasło „hero”.
Warunkiem realizacji zamówienia RACE jest przesłanie go do dnia 29.03.2017r na adres mailowy osoby odpowiedzialnej za obsługę programu RACE w PM SPORT (dane w ofercie RACE) lub na adres mailowy sklepu partnerskiego.
OFERTY SPECJALNE, PROMOCJE, OFERTY DLA KLUBÓW.

Przy IMIENNYM zamówieniu dwóch par nart i więcej dla JEDNEGO zawodnika istnieje możliwość zakupu butów narciarskich z rabatem 25 % od ceny RACE. Promocja będzie honorowana na podstawie imiennej listy zawodników przedstawionej w terminie składania zamówień przedsezonowych.

• WARUNKI WSPÓŁPRACY Z KLUBAMI NARCIARSKIMI:

Kluby zainteresowane nawiązaniem szerszej, partnerskiej współpracy prosimy o kontakt. Oferta dla Klubów przewiduje konkretne wsparcie klubu i zawodników indywidualnie ustalone z zarządem Klubu.

• OFERTA DLA TRENERÓW I INSTRUKTORÓW SITN:

Zamówienia imienne „Preorder” składane do 29.03.2017r. przez trenerów grup sportowych, prowadzących szkolenie w ramach klubu, oraz zamówienia aktywnych instruktorów, zatrudnionych w licencjonowanych szkołach narciarskich SITN będą realizowane w cenach RACE z dodatkowym rabatem 25 %. Warunkiem skorzystania z oferty jest złożenie zamówienia do 29.03.2017r. oraz pozytywna weryfikacja, poświadczenie przez Klub lub przez licencjonowaną szkołę narciarską zrzeszoną w SITN.

TERMINY, ZAMÓWIENIA

TERMIN SKŁADANIA ZAMÓWIEŃ PRZEDSEZONOWYCH UPŁYWA W DNIU 29.03.2017r

Zamówienia złożone po 29.03.2017r. i w trakcie sezonu 2017/2018 będą realizowane w cenach RACE, aż do wyczerpania zapasów

At Dynastar, riders are the roots of the ski manufacturing process.

Our skis are made by and for them, they inspire us and they improve our products. We work hands in hands, day after day, slopes after slopes, to build a brand that perfectly fits to each type of objectives. Ride together. Work together. This is how we rise up.

Whether you are a freerider, ski-crosser, giant slalomist, freestyler or alpine ski fan, all you need to do this winter is choose the right ski for your discipline! Not between the different colours, since this range's originality lies in its singular colour scheme, but between the different sidecuts and the models corresponding to your desires.

For racers in search of adrenalin and victory, look offers a range inspired directly by the prototypes used by its world cup champions... such as Henrik Kristoffersen and Jean-Frédéric Chapuis. The key to success: the rockerflex concept which, thanks to the spacesaving design and semi-suspended heelpiece, provides enhanced control over the ski's flex during turns while retaining maximum precision: without control, power is meaningless!

RACE

RS / RS^{SC}

The performance of World Cup boots comes at a price - comfort. Lange has therefore designed a more comfortable, wider width version of its World Cup boots. Incorporating all the technical features of the Racing products, the RS boots are aimed at expert skiers in search of power and precision. They are available in two widths: 97 mm and 100 mm.

1/ CHOOSE YOUR WIDTH

Lange offers lasts in several widths to extend the available range and provide even more comfort, with no associated trade-off in performance. The main boot models are available with 97 mm and 100 mm lasts.

2/ DUAL 3D LINER

A liner preformed twice in 3D. The inside of the liner is preformed to support the foot while the outside is preformed to the shape of the boot to limit movement and thus ensure superior precision and power transfer. Available in different levels of customisation, the DUAL 3D LINER WORLD CUP, FULL, PRO, PERFORMANCE and SPORT liners provide an accurate fit for optimal comfort and control.

3/ DUAL CORE

The simultaneous injection of two plastics at five different points creates a sandwich shell of the boot: it therefore allows complete control of hard or flexible areas of the boot, guaranteeing the best possible handling on snow. The DUAL CORE technology offers better handling on snow and improved boot responsiveness.

4/ ERGONOMIC BUCKLES

The asymmetrical streamlined design guarantees maximum shell wrapping and lever handling at the same time. Top models feature integrated easy open system.

A. cuff cant +/- 1,5°
B. enhanced fore-aft balance, leverage 12° without spoiler and 16° with forward lean spoiler
C. enhanced edge release, speed 0° degree sole cant
D. enhanced balance, steering 4° ramp angle

NATURAL SKI STANCE

Lange boots are built with the most efficient, neutral and modern upright stance, derived from our World Cup Race Department boots. Our unique Natural Stance compliments modern ski designs by providing more efficient power transfer on shaped and rockered skis, resulting in less quad fatigue for better, longer ski days.

CANTING

Naturally, legs have a tendency to go toward the outside of the body. Lange boots allow you to adjust the canting +/- 1,5°.

FORWARD LEAN

The forward lean of the cuff determines the leg position in the boot. Lange boots provide enhanced fore-aft balance with 12° forward lean without spoiler and 16° with spoiler.

RAMP ANGLE

The ramp angle is more or less important depending on the performance level of the boot. The more inclined the foot is, the easier it is to initiate a turn, but this also causes a decline in stability in the turn. Lange boots feature the lowest possible ramp angle (4°), improving stability throughout the turn.

- Better transmission
- Maximum control

DUAL 3D LINER TECHNOLOGY

We have collected 3D scans of over 40 000 feet to understand the subtleties of the foot, and different foot types. Our bootfitters' network also provides us with insights to improve our products. We based our Dual 3D liner technology on these feedbacks providing the latest technology in terms of fit. The Dual 3D liner technology combines a 3D inside and a 3D outside of the liner. The 3D inside of the liner follows perfectly the foot's shape while the 3D outside follows the shape of the boot. The liner matches both foot and boot to be one. Better fit, better transmission, better feeling to increase the ski experience. Liners using the 3D liner technology are thermoformable.

HEATED BAG

LKFB100

VOLUME (L): 65
 MAIN FABRIC: POLYESTER 600D
 COATING: PVC
 DIMENSIONS (L X W X H mm): L460 X W430 X H340mm

Ideal for drying your boots and carrying all your equipment. Heated bag (220V and 12DC) for effectively drying or warming your ski boots at home or on the drive up to the resort.

RACER BAG

LKFB102

VOLUME (L): 95
 MAIN FABRIC: POLYESTER 600D
 COATING: PVC
 DIMENSIONS (L X W X H mm): L700 X W490 X H280mm
 WEIGHT (KG): 1.15

With its 95-litrevolume, the Racer Bag is THE perfect bag for racers and all their accessories. An oversize bag with tear-proof lining, two side compartments for boots, a pocket on top for a helmet and goggles, zip access to the rear, adjustable padded straps and a front pocket with an organiser.

LANGE PRO

LKFB105

VOLUME (L): 36
 MAIN FABRIC: POLYESTER 600D
 COATING: PVC
 DIMENSIONS (L X W X H mm): L300 X W200 X H600mm
 WEIGHT (KG): 1.31

An ideal bag for young racers. Racing bag designed for training. Side pockets for boots with built-in liner protection. Mesh pocket on top for a helmet, a pocket for goggles/gloves and equipment, access to the entire bag via a zip on the front, adjustable padded straps, and a pocket for a name label.

STARTING BAG

LKFB103

VOLUME (L): 140
 MAIN FABRIC: POLYESTER 600D
 COATING: PVC
 DIMENSIONS (L X W X H mm): L700 X W490 X H400mm
 WEIGHT (KG): 1.22

An oversize bag (140 litres) designed for coaches and training. Featuring backpack-style shoulder straps and a zipped opening on the top.

LANGE BACKPACK SEAT

LKFB104

VOLUME (L): 55
 MAIN FABRIC: POLYESTER 600D
 COATING: PVC
 DIMENSIONS (L X W X H mm): L500 X W340 X H320mm
 WEIGHT (KG): 2.3

The ideal bag for carrying equipment and for sitting on. You can now wait comfortably seated between runs, and put on or remove your boots without getting wet, all thanks to the intelligent design of this comprehensive backpack. The main compartment can hold a pair of boots, a helmet protected in an integrated cover, while gloves and accessories can be carried in the three outside pockets.

LANGE PRO BOOT BAG

LKFB106

VOLUME (L): 40
 MAIN FABRIC: POLYESTER 600D
 COATING: PVC
 DIMENSIONS (L X W X H mm): L400 X W260 X H430mm
 WEIGHT (KG): 0.74

Opens for easily storing your boots. Boot bag with shoulder straps for easy carrying, including a central boot compartment. Zip pockets on the front and on top for accessories. 600D PVC-coated polyester

MEDIUM BOOT BAG

LKFB109

VOLUME (L): 40
 MAIN FABRIC: POLYESTER 600D
 COATING: PVC
 DIMENSIONS (L X W X H mm): L400 X W250 X H430mm
 WEIGHT (KG): 0.68

Boot bag with a separate pocket for gloves and goggles. Boot bag with a shoulder strap. Central boot compartment and a ventilated pocket for accessories. 600D PVC-coated polyester.

SPEED CARGO BAG

DKFB100

2 separate compartments, 3 tank wheels, telescopic handle, foam handle, bag bottom ultra durable and waterproof, zippered mesh pocket.

COMPOSITION POLYESTER 600D
 COATING PVC
 VOLUME Foam Grip +
 SIZE L810 x W410 x H400mm
 WEIGHT 5.84kg / 130L

SPEED DUFFEL 50L

DKFB101

A 50-litre travel bag suitable for short trips of two to three days. Flexible bag. Detachable straps, a main compartment and two mesh pockets (one closed). Zip front pocket on the outside.

COMPOSITION POLYESTER 600D
 COATING PVC
 VOLUME Foam Grip +
 SIZE L600 x W320 x H320mm
 WEIGHT 2kg / 50L

SPEED CABIN BAG

DKFB102

Travel bag designed for airplane cabins. With two zip front pockets and two inner compartments separated by a mesh lining. Compression straps.

COMPOSITION POLYESTER 600D
 COATING PVC
 VOLUME Foam Grip +
 SIZE L530*W320*H300mm
 WEIGHT 2.91kg / 35L

SPEED 2/3 PAIR WHEEL BAG 210CM

DKFB103

Wheeled bag for holding two or three pairs of skis. Maximum ski size of 210 cm. Ideal for travelling or trips requiring several pairs of skis and poles. Pockets on top of the bag for storing gloves/hats and tools.

COMPOSITION POLYESTER 600D
 COATING PVC
 VOLUME Foam Grip +
 SIZE L2150 x W350 x H220
 WEIGHT 5.50kg

SPEED 2 PAIRS 195 CM

DKFB104

Technical characteristics: 2-pair pro ski bag, compression straps, padded handles, reinforced lining.

COMPOSITION POLYESTER 600D
 COATING PVC
 VOLUME Foam Grip +
 SIZE L1980 x W260 x H260
 WEIGHT 1.20kg

SKI STRAP

DKCB010

EVA and velcro ski straps.

COMPOSITION EVA and VELCRO.
 COATING PVC
 SIZE L470 x W55 x H10
 WEIGHT 0,026kg

DYNASTAR RACE DEPARTMENT RECOMMENDATIONS (SKIS, BINDINGS, SKIBOOT)

General Observations: Ski selection, both model and length, always will be a very personal and, to a large degree, a very subjective decision. The following chart shows some of the common trends we noticed as a result of our ongoing testing, which should be taken into consideration when making model and length decision. Optimal ski length is determined by the following order: ability, weight and strength. The Rossignol Race Department hopes you will find this information useful and wishes you an excellent winter of racing. Good luck at the races!

POC SPIN

NEW 17/18

Artic SL SPIN

The Artic SL SPIN is a no compromise slalom helmet designed for competition and which provides the ultimate in safety and performance. Featuring POC's patent pending rotational impact protection system, SPIN, the internal shearing pads will reduce the effects of an oblique fall by reducing the amount of force transmitted to the head and brain. SPIN works by allowing pads placed inside the helmet to shear in any direction during an oblique impact, a process inspired by the brain's own internal protective system, cerebrospinal fluid, which cushions the head during a fall. By using the innovative and unique pad technology, which sit directly against the user's head, SPIN pads allow the helmet to move relative to the head during a fall, reducing the force transmitted to the brain.

- Innovative detachable and adjustable Maxilla break away chin bar which can be fixed or set to break away at varying impact levels.
- Helmet integrated with patent pending POC SPIN (Shearing Pad inside) to increase protection against rotational impacts
- POC patented Visco-elastic Polymer Dough (VPD) 2.0 inserts in the rear of the helmet
- Multi impact EPP liner
- Durable ABS shell
- Adjustable ventilation with front and top sliders
- Detachable goggle clip

SIZES XS-S, M-L, XL-XXL WEIGHT 550 g + MAXILLA AND ASSEMBLY 200G
 CERTIFIED CE EN 1077-B, ASTM F2040
 ARTICLE NUMBER 10497

POC SPIN

NEW 17/18

Skull Orbic Comp SPIN

The FIS approved and ultimate race helmet, Skull Orbic Comp SPIN, takes high speed, oblique falls and repetitive impact protection to another level. The patent pending deflector panel uses a combination of technologies, EPP and VPD 2.0, to minimise the energy transmitted to a skier's head from repeatedly hitting gates or during a fall. The deflector panel is also reinforced with an Aramid Penetration Barrier (APB) which improves the safety and integrity of the helmet.

Featuring POC's patent pending rotational impact protection system, SPIN, the internal shearing pads will reduce the effects of an oblique fall by reducing the amount of force transmitted to the head and brain. SPIN works by allowing pads placed inside the helmet to shear in any direction during an oblique impact, a process inspired by the brain's own internal protective system, cerebrospinal fluid, which cushions the head during a fall. By using the innovative and unique pad technology, which sit directly against the user's head, SPIN pads allow the helmet to move relative to the head during a fall, reducing the force transmitted to the brain.

The Skull Orbic Comp SPIN also features ear chambers which have been designed to improve balance and hearing without compromising safety and fit. In addition, the helmet is compatible with the Maxilla break away chin-guard to provide extra levels of protection if required.

- Helmet integrated with patent pending POC SPIN (Shearing Pad Inside) to increase protection against rotational impact
- VPD 2.0 deflector panel for enhanced protection against repeated impacts
- Aramid anti-penetration integrated in the deflector panel
- Updated ABS shell
- multi-impact EPP liner with improved fit
- Ear chambers designed to improve balance and hearing
- Fixed goggle clip
- Compatible with POC's Maxilla break away chin-guard for Slalom (sold separately)
- FIS RH 2013 certified
- ABS PC Shell

SIZES XS-S, M-L, XL-XXL WEIGHT 690 g
 CERTIFIED CE EN 1077-A, FIS RH 2013, ASTM F2040
 ARTICLE NUMBER 10170

POC SPIN

NEW 17/18

Skull Orbic X SPIN

The Skull Orbic X SPIN is an FIS approved high speed race helmet. Featuring POC's patent pending rotational impact protection system, SPIN, the internal shearing pads will reduce the effects of an oblique fall by reducing the amount of force transmitted to the head and brain. SPIN works by allowing pads placed inside the helmet to shear in any direction during an oblique impact, a process inspired by the brain's own internal protective system, cerebrospinal fluid, which cushions the head during a fall. By using the innovative and unique pad technology, which sit directly against the user's head, SPIN pads allow the helmet to move relative to the head during a fall, reducing the force transmitted to the brain.

A combination of SPIN, an advanced multi impact EPP liner, which is thicker in strategic zones to manage higher impact and repetitive forces, plus a very robust ABS shell results in a very safe and durable helmet which meets the needs of competitive skiers.

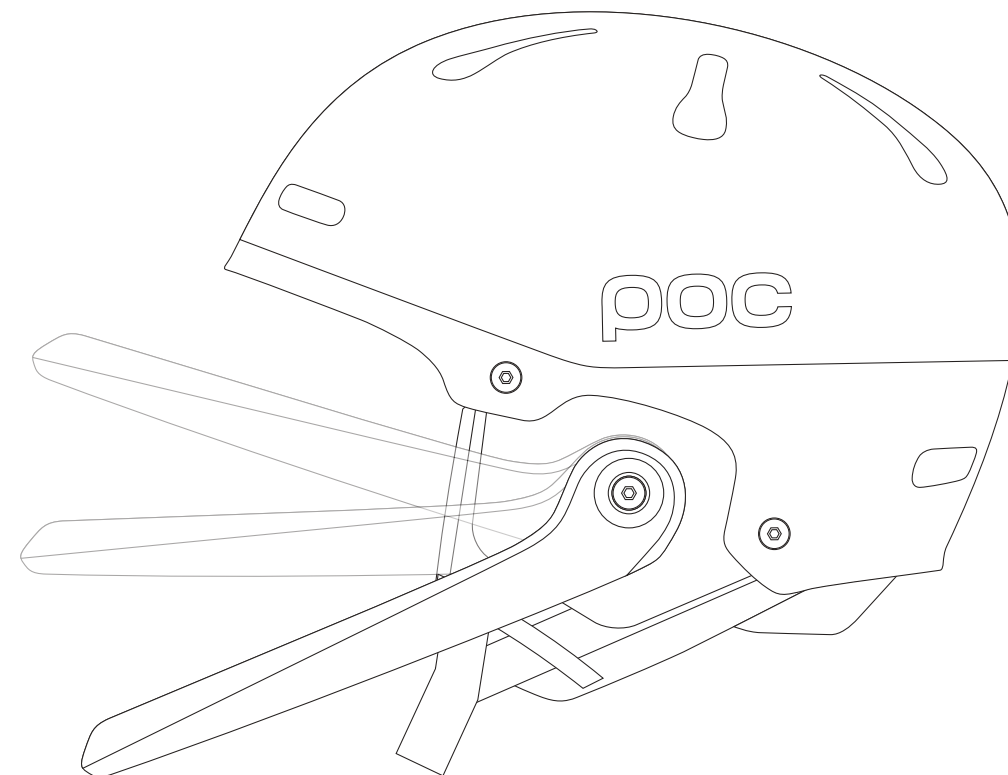

The Skull Orbic X SPIN also features ear chambers which have been designed to improve balance and hearing without compromising safety and fit and the helmet is compatible with POC's Maxilla break away chin-guard to provide extra protection if required.

- Helmet integrated with patent pending POC SPIN (Shearing Pad Inside) to increase protection against rotational impact
- EPP deflector panel
- Multi-impact EPP liner with improved fit and impact protection
- Updated robust ABS shell and
- Ear chambers designed for less balance and hearing interference
- Fixed goggle clip
- Compatible with POC's Maxilla break away chin-guard for Slalom (sold separately)
- FIS RH 2013 certified
- ABS PC Shell

SIZES XS, S, M, L, XL, XXL WEIGHT 650 g
 CERTIFIED EN 1077-A, FIS RH 2013, ASTM 2040
 ARTICLE NUMBER 10171

Maxilla Break Away Chin Bar

The Artic SL SPIN features the unique detachable and adjustable Maxilla break away chin guard, which can be fixed or set to break away at varying impact levels. The Maxilla break away chin-guard has been designed to minimize any potential injury to the neck or face and to meet the needs of different types of slalom racers and courses. The innovative and simple self-adjustment system gives racers all the flexibility they need for training and race day.

A combination of SPIN, an advanced multi impact EPP liner and a very robust ABS shell result in a very safe and durable helmet. In addition, to meet the specific needs of slalom racers the helmet also features POC's patented VPD 2.0 technology in the helmet to reduce the force of impact and absorb energy away from the helmet liner and user. Together with a precise and fully adjustable ventilation system the Artic SL SPIN provides the full package for the serious slalom racer.

Skull X

POC's Skull X race helmet features a penetration proof multi-impact EPP liner to withstand multiple impacts and has a tapered shell for resistance and protection. The ear chambers are designed for less effect on balance and hearing. The Skull X also makes an excellent race helmet for junior ski racers.

- Injected PC/ABS shell.
- Multi-impact EPP liner.
- Tapered shell for resistance and protection.
- Comfortable LD foam lining, easy detachable for cleaning.
- Penetration-proof front ventilation.
- Ear chambers designed for less effect on balance and hearing.
- Detachable goggle clip.

POCito Skull

The POCito Skull has the same technologies as POC's adult race helmets but provides improved impact absorption at lower speeds and forces. It has a full Aramid Penetration Barrier to protect from sharp objects and the helmet has also adjustable sizing, which allows the child to grow with the helmet. The helmet comes in fluorescent colors with reflective stickers to maximize visibility and ultimately avoid collisions with other skiers. There is also an accessory pack including a LED light and a fluorescent vest. The goggle clip has a My Info-space for the parents' contact information.

- POCito - Kids specific.
- Shell of injected PC/ABS.
- Multi-impact EPP liner.
- Aramid Penetration Barrier (APB).
- Comfortable LD foam lining, removable for easy cleaning.
- Turn-ring size adjustment system.
- Fixed goggle clip with contact information.
- Includes accessory pack with a LED lamp for better visibility in the dark and a POCito Bib in fluorescent orange with reflectors, to be worn over the jacket.
- Recco reflector

POC Fovea Clarity Comp

Fovea Clarity Comp introduces a new level of optical performance thanks to unique lenses produced in collaboration with industry leaders, Carl Zeiss. Clarity Comp lenses have been developed with specific and highly advanced tints designed to enhance contrast and vision for the shorter, intense competition settings when nothing less than perfect sight will do. Unique Spektris mirror coatings have been engineered to complement each Clarity Comp lens base tint and are applied for three distinct weather conditions: sunny; partly sunny and overcast. The Fovea frame is also optimized for a large field of view and with the option of high density race vents, the result is a goggle and lens which provides unparalleled competition vision and performance.

- Clarity Comp lens with base tint maximized for contrast and competition
- Unique Spektris mirror coating
- Designed for a large field of view
- Adjustable ventilation - additional high density race vent included
- Includes spare Clarity Comp lens for low light condition
- Triple layer foam for comfort
- Anti-fog treatment
- Anti-scratch treatment

Retina Big Comp

The Retina Big Comp comes with race specific tints, made of optical grade PC/CP that is anti-fog and anti-scratch treated to promote vision and resistance. The PU frame conforms to different face shapes and maintains its flexibility even in cold temperatures, and the triple layer face foam and fleece ensures a comfortable fit. Compatible with all Retina Big lenses.

Included: Two race specific lenses (Smokey Yellow and Transparent) are included when buying the Retina Big Comp goggles.

- Optical grade polycarbonate (PC) outer lens.
- Cellulose propionate (CP) inner lens.
- Anti-scratch/Anti-fog treatment.
- Triple-layer face foam.
- Silicone grip on the inside of the strap.

Spine VPD System Comp Back

The Spine VPD System Comp Back vest is a dedicated back protector for ski racers or skiers who want the ultimate performance back protector. Based on POC's patented VPD (Visco-elastic Polymer Dough) technology, which adapts with body heat to fit each unique user, the molded back protector is extremely flexible and conforms to the highest, Level 2 (1621-2) certification. The woven fabric uses monofilament threads and a Kevlar reinforced barrier to establish resistance and anti-penetration around the spine, which provide maximum abrasion resistance. The design also provides a highly versatile protector with extreme ventilation channels and flexibility ensuring that the vest is extremely comfortable to wear all day. Designed with a race fit the protector also features low bulk thanks to seamless glue technology and minimizing all additional fabric.

- Extremely flexible molded VPD back protector
- Ventilation channels for optimizing moisture control
- Kevlar reinforced anti-penetration protection around the spine
- Zone based ventilation system
- Race fit with glued edges for less bulk
- Optional adjustable waistband

Spine VPD 2.0 Comp Back Jr

The Spine VPD System Comp Back Jr vest is a dedicated back protector for younger ski racers who need the ultimate performance back protector. Based on POC's patented VPD (Visco elastic Polymer Dough) technology, which adapts with body heat to fit each unique user, the molded back protector is extremely flexible and conforms to the highest, Level 2 (1621-2) certification. The design also provides a highly versatile protector with ventilation channels and flexibility which ensures that the vest is extremely comfortable to wear all day. Designed with a race fit the protector also features low bulk thanks minimized use of fabric.

- Extremely flexible 3ply VPD back protector
- Perforated for optimizing moisture control
- Race fit for less bulk
- Optional adjustable waistband

Spine VPD 2.0 Airbag

Designed in collaboration with world champion skiers, the Spine VPD 2.0 Airbag vest is made for demanding racers who care about performance and protection. Combining the VPD back protector with the In&motion airbag system, it offers the highest level of protection. Approved by the International Ski Federation (FIS), the Spine VPD 2.0 Airbag Vest system is integrated within the light vest wearable under a ski racing suit, which makes it convenient and comfortable to wear. Wind tunnel testing has also proven that the vest has no effect on a skier's aerodynamics. The airbag provides a wide-spanning protection of the neck, chest, spine, abdomen and hips and offers up to more than 4 times better absorption capacity compared to a standard back protector.

Hip VPD 2.0 Ski Shorts

Protective shorts that provide a high level of protection for your tailbone and hips. Hip VPD 2.0 Ski Shorts allow for great freedom of movement due to its slim profile and VPD adapts to the shape of your body, but when exposed to impact, the material stiffens and has extreme impact absorption properties.

- Perforated 3-ply VPD 2.0 hip protection that outperforms the 1621-1 motorcycle standard.
- Stretch and ventilated mesh construction.
- Optional tailbone protection for Coccyx region.

CERTIFIED EN 1621-1
ARTICLE NUMBER 20241

Joint VPD System Knee

The Joint VPD System Knee is a highly flexible, 2-ply knee protector which conforms with international shock absorption standards. The knee protector features a highly efficient ventilation system and an outer fabric which is made with high-tenacity polyamide yarns for low friction and high abrasion resistance. VPD is the perfect material for mountain biking as it wraps around a rider's body shape when warm, which gives great freedom of movement on a bike. To protect riders during a fall, the VPD technology then hardens on impact to help minimise injury.

- Extremely flexible and light VPD knee pad
- EN 1621-1 certified shock absorption
- Ventilation system constructed within each layer to optimize moisture management and comfort
- Low friction, polyamide construction with high abrasion resistance

SIZES **S, M, L**
CERTIFIED **EN 1621-1**
ARTICLE NUMBER **20377**

Joint VPD Air Knee

The lightweight Joint VPD Air Knee is a light-duty knee pad developed for skiers and snowboarders who want enhanced flexibility, ventilation and freedom of movement. The elastic strap and neoprene anti-slip ensures a comfortable fit, even in rough riding conditions.

- Lightweight and impact absorbing VPD compound.
- Reinforced stretch fabric.
- Elastic strap for a comfortable fit.
- Neoprene anti-slip on the inside.
- Designed with a low profile.

SIZES **XS, S, M, L, XL**

POC Layer Cut Suit Top
POC Layer Cut Suit Top Jr

POC Layer is an innovative approach to protecting ski racers from cuts and abrasions. By combining the protective qualities of Dyneema® fabric within a technical base layer, ski racers have a simple but highly effective protective barrier to injury from sharp edges. The Dyneema® fabric, which has been tested for cut resistance under EN 388:2004, is strategically located to ensure that areas most exposed to cuts or abrasion are protected, notably the collar, neck, under arm and along the sleeves.

To allow a ski racer the ability to focus and perform the jersey has also been designed with a high level of comfort and flexibility. A diagonal zip collar, semi raglan sleeves and an extended center back length provide a large freedom of movement. The Jersey can be complemented by POC layer tights which when worn together provide the perfect race protection. When worn in combination with a POC Skin GS suit level 4 cut resistance is achieved (out of a maximum of 5) as tested under EN 388:2004.

- Jersey mixed with a Dyneema® fabric to prevent injury from sharp edges
- Level 2 cut resistance achieved under EN 388:2004, level 4 cut resistance achieved when paired with POC Skin GS suit (5 is maximum)
- Dyneema® fabric strategically placed to reinforce areas most exposed to sharp edges
- Highly flexible and lightweight main fabric
- Good wicking and moisture management properties
- Good level of warmth
- Competition/race fit
- Designed to be worn with a race suit

COMPOSITION CUT RESISTANT FABRIC – 90% DYNEEMA® 10% LYCRA FABRIC - 90% POLYESTER, 10% ELASTANE
CERTIFICATION TESTED FOR CUT RESISTANCE UNDER EN 388:2004

POC Layer Cut Suit Bottom Jr

POC Layer is an innovative approach to protecting ski racers from cuts and abrasions. By combining the protective qualities of Dyneema® fabric within a technical base layer, ski racers have a simple but highly effective protective barrier to injury from sharp edges. The Dyneema® fabric, which has been tested for cut resistance under EN 388:2004, is strategically located to ensure that areas most exposed to cuts or abrasion are protected, notably the crotch, the front and back of the thigh, back of the knee and seat of the tights.

To allow a ski racer the ability to focus and perform the tights have also been designed with a high level of comfort and flexibility. A soft and comfortable elastic waistband, a lighter weight material around the calf, crotch, leg and hip, combined with a ski specific three quarter length ensure they meet the ski racers needs. The tights can be complemented by the POC layer jersey which when worn together provide the perfect race protection. When worn in combination with a POC Skin GS suit level 4 cut resistance is achieved (out of a maximum of 5) as tested under EN 388:2004.
