## SZANOWNI PAŃSTWO

Zapraszamy do zapoznania się z ofertą ROSSIGNOL RACE 2018/19 na sprzęt i akcesoria marki ROSSIGNOL. Nasza oferta skierowana jest do klubów, zawodników i szkół narciarskich, które nastawione są na szkolenia sportowe i tym samym wymagają najlepszego sprzętu dla użytkowników.

### OFERTA, CENY RACE, ZAMÓWIENIA RACE

W załączonej ofercie znajdą Państwo:

- Produkty z linii RACE, przeznaczone do sportu wyczynowego we wszystkich kategoriach wiekowych. Oferta zawiera specyfikację techniczną i opis produktów RACE.
- Ceny produktów z linii RACE skalkulowane są na poziomie sugerowanej ceny detalicznej, pomniejszonej o 20 %. Cennik RACE dostępny jest na stronie [www.pmsport.com.pl](http://www.pmsport.com.pl) w zakładce RACE, hasło „hero”.

### REALIZACJA ZAKUPÓW Z OFERTY RACE, CENY, OFERTY DODATKOWE, PROMOCJE:

Zamówienie składane przez KLUBY, TRENERÓW, RODZICÓW lub ZAWODNIKÓW na produkty RACE do dnia 28 marca 2018r. czyli tzw. PREORDER będzie realizowane z rabatem 10 % od cen RACE.

Zawodnik, który złoży w terminie tj. do 28.03.2018r. zamówienie RACE PREORDER, przy zakupie zamówionych produktów otrzymuje RACE VOUCHER, ważny na produkty ROSSIGNOL, LANGE, DYNASTAR, POC. RACE VOUCHER może być zrealizowany w wybranych sklepach, obsługujących program RACE. Wartości RACE VOUCHERÓW: zakupy z zam. RACE PREORDER o wartości min. 2500 zł - Voucher 200 zł, o wartości min. 4000 zł - 400 zł. RACE VOUCHER może być zrealizowany na zakupy produktów spoza zamówienia RACE PREORDER. Szczegółowe zasady promocji dostępne w sklepach, obsługujących program RACE i na stronie [www.pmsport.com.pl](http://www.pmsport.com.pl)

## SKŁADANIE I REALIZACJA ZAMÓWIEŃ RACE

RACE Voucher wydawany jest wyłącznie, przy zakupie produktów zamówionych do 28.03.2018 w RACE PREORDER

- Obsługą zamówień RACE będą zajmowały się sklepy partnerskie, których lista wraz z osobami kontaktowymi dostępna będzie na stronie [www.pmsport.com.pl](http://www.pmsport.com.pl) w zakładce RACE, hasło „hero”.

- Formularze zamówień RACE dostępne będą na stronie [www.pmsport.com.pl](http://www.pmsport.com.pl) w zakładce RACE, hasło „hero”. Warunkiem realizacji zamówienia RACE jest przesłanie go do dnia 28.03.2018r na adres mailowy osoby odpowiedzialnej za obsługę programu RACE w PM SPORT (dane w ofercie RACE) lub na adres mailowy sklepu partnerskiego. OFERT SPECJALNE, PROMOCJE, OFERTY DLA KLUBÓW.

Przy IMIENNYM zamówieniu dwóch par nart i więcej dla JEDNEGO zawodnika istnieje możliwość zakupu butów narciarskich z rabatem 25 % od ceny RACE. Promocja będzie honorowana na podstawie imiennej listy zawodników przedstawionej w terminie składania zamówień przedsezonowych.

### • WARUNKI WSPÓŁPRACY Z KLUBAMI NARCIARSKIMI:

Kluby zainteresowane nawiązaniem szerszej, partnerskiej współpracy prosimy o kontakt. Oferta dla Klubów przewiduje konkretne wsparcie klubu i zawodników indywidualnie ustalone z zarządzeniem Klubu.

### • OFERTA DLA TRENERÓW I INSTRUKTORÓW SITN:

Zamówienia imienne „Preorder” składane do 28.03.2018r. przez trenerów grup sportowych, prowadzących szkolenie w ramach klubu, oraz zamówienia aktywnych instruktorów, zatrudnionych w licencjonowanych szkołach narciarskich SITN będą realizowane w cenach RACE z dodatkowym rabatem 25 %. Warunkiem skorzystania z oferty jest złożenie zamówienia do 28.03.2018r. oraz pozytywna weryfikacja, poświadczenie przez Klub lub przez licencjonowaną szkołę narciarską zrzeszoną w SITN.

## TERMINY, ZAMÓWIENIA

### TERMIN SKŁADANIA ZAMÓWIEŃ PRZEDSEZONOWYCH UPŁYWA W DNIU 28.03.2018r

Zamówienia złożone po 28.03.2018r. i w trakcie sezonu 2018/2019 będą realizowane w cenach RACE, aż do wyczerpania zapasów

# BAND OF HEROES

# ROSSIGNOL

# BAND OF HEROES

Racing has been a way of life for Rossignol since 1907. Over a century of iconic history and innovation. Over a century of victories, medals, and glory.

Today, Rossignol's commitment and passion for racing is more visible than ever. Whether a World Cup champion or a race league competitor, the all-new HERO race collection exemplifies the spirit of competition, the excitement at the start, the need for speed, and the ultimate thrill of victory.

The apex of premium technology, athlete-approved innovation, and competitive racing performance, HERO invites every skier to share in the rush of adrenaline as you cross the finish, capture the podium, and raise your skis triumphantly into the air for Another Best Day.

Join the Band of Heroes

## DYNAMIC LINE CONTROL

Used in World Cup by our athletes, and our World Champion Tessa Worley in 2017. The DLC technology is a complete hydraulic shock absorber with an attachment point at the front of the ski.

- No Reversed camber !
- Counter flex impossible to keep perfect "Line".
- Stability during the gates spots (Slapping area with ruts)
- Flex Control during the turns
- Edge Grip efficiency
- Snappy at the end of the turn

Based on Hydraulic Smart System

## > HIGHER TRAJECTORY CONTROL

## DUAL CORE

HERO is driven by the Dual Core technology. The DUAL CORE technology involves injecting materials with different hardness levels into the same mould, with three injection points in the shell and two injection points in the cuff. The result is a sandwich construction with an ultra-thin layer of hard materials on the outside encapsulating the softer materials inside. This technology **can be used to accurately fine-tune the progressive flex, rear support and rebound**, and also allows for highly effective lateral power transfer.

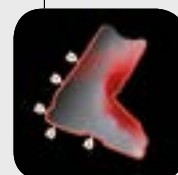

3 INJECTION POINTS IN THE SHELL  
2 INJECTION POINTS IN THE CUFF

# BINDINGS

For racers in search of adrenalin and victory, LOOK offers a range inspired directly by the prototypes used on the World Cup circuit by its champions, including Henrik Kristoffersen and Tessa Worley.

Henrik will launch himself from start huts with his "GREEN LTD" pro model, reminding everyone that, when you go fast, the timer turns green!

Thanks to a smaller binding attachment area and semi-suspended heel piece, the **ROCKERFLEX** concept provides enhanced control over the ski's flex during turns while retaining maximum precision: without control, power is meaningless. **GO GREEN!**

## R22

The R22 plate has been developed by our World Cup athletes. It's a one-piece plate, with metal insert and metal sidewall for better edge grip.

It is compatible with PX Rockerflex, SPX Rockerflex, and SPX Rockerace.

## R20 PRO

It's a 2 pieces lifter version, to adapt perfectly to the bodyshape of young champions and their ski length.

# PROTECTIONS

## RPG IN&MOTION AIRBAG VEST

The new and innovative RPG IN&MOTION AIRBAG VEST protects from serious injuries due to major falls. The RPG IN&MOTION AIRBAG VEST is a EN 1621-2 certified ROSSIGNOL back protector with an integrated In&motion airbag system. Once inflated, the airbag protects body vital areas: abdomen, chest, neck, back and hips. This intelligent airbag system is specifically designed for ski races, and is approved by the International Federation of Ski (FIS) for Alpine (SL; GS; SG; DH) and Ski Cross.

# IMPACTS

After taking into account the actual day-to-day usage of a ski helmet including storage, transport, and usage, Rossignol has developed a new technology that protects you longer. Even low-intensity shocks that leave no visible trace can alter the protection helmets provide and negatively affect resistance to future impacts.

In order to provide more reliable durability in its ski helmet range, Rossignol deploys new **IMPACTS** technology. **IMPACTS** Technology offers improved protection against multiple impacts without compromising on weight, style, or comfort.

**IMPACTS PROTECTS YOU LONGER!**

**ROSSIGNOL RACE DEPARTMENT RECOMMENDATIONS (Skis, Bindings, Skiboosts)**

General Observations: Ski selection, both model and length, always will be a very personal and, to a large degree, a very subjective decision. The following chart shows some of the common trends we noticed as a result of our ongoing testing, which should be taken into consideration when making model and length decision. Optimal ski length is determined by the following order: ability, weight and strength. The Rossignol Race Department hopes you will find this information useful and wishes you an excellent winter of racing. Good luck at the races!

## SZANOWNI PAŃSTWO

Zapraszamy do zapoznania się z ofertą DYNASTAR, LANGE, KERMA RACE 2018/19 na sprzęt i akcesoria marki DYNASTAR, LANGE, KERMA. Nasza oferta skierowana jest do klubów, zawodników i szkół narciarskich, które nastawione są na szkolenia sportowe i tym samym wymagają najlepszego sprzętu dla użytkowników.

### OFERTA, CENY RACE, ZAMÓWIENIA RACE

W załączonej ofercie znajdują Państwo:

- Produkty z linii RACE, przeznaczone do sportu wyczynowego we wszystkich kategoriach wiekowych. Oferta zawiera specyfikację techniczną i opis produktów RACE.
- Ceny produktów z linii RACE skalkulowane są na poziomie sugerowanej ceny detalicznej, pomniejszonej o 20%. Cennik RACE dostępny jest na stronie [www.pmsport.com.pl](http://www.pmsport.com.pl) w zakładce RACE, hasło „hero”.

### REALIZACJA ZAKUPÓW Z OFERTY RACE, CENY, OFERTY DODATKOWE, PROMOCJE:

Zamówienie składane przez KLUBY, TRENERÓW, RODZICÓW lub ZAWODNIKÓW na produkty RACE do dnia 28 marca 2018r. czyli tzw. PREORDER będzie realizowane z rabatem 10% od cen RACE.

Zawodnik, który złoży w terminie tj. do 28.03.2018r. zamówienie RACE PREORDER, przy zakupie zamówionych produktów otrzymuje RACE VOUCHER, ważny na produkty DYNASTAR, LANGE, KERMA. RACE VOUCHER może być zrealizowany w wybranych sklepach, obsługujących program RACE. Wartości RACE VOUCHERÓW: zakupy z zam. RACE PREORDER o wartości min. 2500 zł - Voucher 200 zł, o wartości min. 4000 zł - 400 zł. RACE VOUCHER może być zrealizowany na zakupy produktów spoza zamówienia RACE PREORDER. Szczegółowe zasady promocji dostępne w sklepach, obsługujących program RACE i na stronie [www.pmsport.com.pl](http://www.pmsport.com.pl)

## SKŁADANIE I REALIZACJA ZAMÓWIEŃ RACE

RACE Voucher wydawany jest wyłącznie, przy zakupie produktów zamówionych do 28.03.2018 w RACE PREORDER

- Obsługą zamówień RACE będą zajmowały się sklepy partnerskie, których lista wraz z osobami kontaktowymi dostępna będzie na stronie [www.pmsport.com.pl](http://www.pmsport.com.pl) w zakładce RACE, hasło „hero”.

- Formularze zamówień RACE dostępne będą na stronie [www.pmsport.com.pl](http://www.pmsport.com.pl) w zakładce RACE, hasło „hero”.  
Warunkiem realizacji zamówienia RACE jest przesłanie go do dnia 28.03.2018 r na adres mailowy osoby odpowiedzialnej za obsługę programu RACE w PM SPORT (dane w ofercie RACE) lub na adres mailowy sklepu partnerskiego.  
OFERT SPECJALNE, PROMOCJE, OFERTY DLA KLUBÓW.

Przy IMIENNYM zamówieniu dwóch par nart i więcej dla JEDNEGO zawodnika istnieje możliwość zakupu butów narciarskich z rabatem 25% od ceny RACE. Promocja będzie honorowana na podstawie imiennej listy zawodników przedstawionej w terminie składania zamówień przedsezonowych.

### • WARUNKI WSPÓŁPRACY Z KLUBAMI NARCIARSKIMI:

Kluby zainteresowane nawiązaniem szerszej, partnerskiej współpracy prosimy o kontakt. Oferta dla Klubów przewiduje konkretne wsparcie klubu i zawodników indywidualnie ustalane z zarządkiem Klubu.

### • OFERTA DLA TRENERÓW I INSTRUKTORÓW SITN:

Zamówienia imienne „Preorder” składane do 28.03.2018r. przez trenerów grup sportowych, prowadzących szkolenie w ramach klubu, oraz zamówienia aktywnych instruktorów, zatrudnionych w licencjonowanych szkołach narciarskich SITN będą realizowane w cenach RACE z dodatkowym rabatem 25%. Warunkiem skorzystania z oferty jest złożenie zamówienia do 28.03.2018r. oraz pozytywna weryfikacja, poświadczenie przez Klub lub przez licencjonowaną szkołę narciarską zrzeszoną w SITN.

## TERMINY, ZAMÓWIENIA

### TERMIN SKŁADANIA ZAMÓWIEŃ PRZEDSEZONOWYCH UPŁYWA W DNIU 28.03.2018r

Zamówienia złożone po 28.03.2018r. i w trakcie sezonu 2018/2019 będą realizowane w cenach RACE, aż do wyczerpania zapasów

# BINDINGS

For racers in search of adrenalin and victory, LOOK offers a range inspired directly by the prototypes used on the World Cup circuit by its champions, including Henrik Kristoffersen and Tessa Worley.

Henrik will launch himself from start huts with his "GREEN LTD" pro model, reminding everyone that, when you go fast, the timer turns green!

Thanks to a smaller binding attachment area and semi-suspended heel piece, the **ROCKERFLEX** concept provides enhanced control over the ski's flex during turns while retaining maximum precision: without control, power is meaningless! **GO GREEN!**

## R22

The R22 plate has been developed by our World Cup athletes. It's a one-piece plate, with metal insert and metal sidewall for better edge grip. It is compatible with PX Rockerflex, SPX Rockerflex, and SPX Rockerace.

## R20 PRO

It's a 2 pieces lifter version, to adapt perfectly to the bodyshape of young champions and their ski length.

RS / RS<sup>SC</sup>

# RACE

The performance of World Cup boots comes at a price - comfort. Lange has therefore designed a more comfortable, wider width version of its World Cup boots. Incorporating all the technical features of the Racing products, the RS boots are aimed at expert skiers in search of power and precision. They are available in two widths: 97 mm and 100 mm.

### 1/ CHOOSE YOUR WIDTH

Lange offers lasts in several widths to extend the available range and provide even more comfort, with no associated trade-off in performance. The main boot models are available with 97 mm and 100 mm lasts.

### 2/ DUAL 3D LINER

A liner preformed twice in 3D. The inside of the liner is preformed to support the foot while the outside is preformed to the shape of the boot to limit movement and thus ensure superior precision and power transfer. Available in different levels of customisation, the DUAL 3D LINER WORLD CUP, FULL, PRO, PERFORMANCE and SPORT liners provide an accurate fit for optimal comfort and control.

### 3/ DUAL CORE

The simultaneous injection of two plastics at five different points creates a sandwich of material over the entire shell of the boot: it therefore allows complete control of hard or flexible areas of the boot, guaranteeing the best possible handling on snow. The DUAL CORE technology offers better handling on snow and improved boot responsiveness.

### 4/ ERGONOMIC BUCKLES

The asymmetrical streamlined design guarantees maximum shell wrapping and lever handling at the same time. Top models feature integrated easy open system.

- WC FIT  
- CAM LOCK

A. cuff cant +/- 1,5°  
B. enhanced fore-aft balance, leverage 12° without spoiler and 16° with forward lean spoiler  
C. enhanced edge release, speed 0° degree sole cant  
D. enhanced balance, steering 4° ramp angle

### NATURAL SKI STANCE

Lange boots are built with the most efficient, neutral and modern upright stance, derived from our World Cup Race Department boots. Our unique Natural Stance compliments modern ski designs by providing more efficient power transfer on shaped and rockered skis, resulting in less quad fatigue for better, longer ski days.

### CANTING

Naturally, legs have a tendency to go toward the outside of the body. Lange boots allow you to adjust the canting +/- 1,5°.

### FORWARD LEAN

The forward lean of the cuff determines the leg position in the boot. Lange boots provide enhanced fore-aft balance with 12° forward lean without spoiler and 16° with spoiler.

### RAMP ANGLE

The ramp angle is more or less important depending on the performance level of the boot. The more inclined the foot is, the easier it is to initiate a turn, but this also causes a decline in stability in the turn. Lange boots feature the lowest possible ramp angle (4°), improving stability throughout the turn.

**NEW**

**DUAL 3D LINER TECHNOLOGY**

We have collected 3D scans of over 40 000 feet to understand the subtleties of the foot, and different foot types. Our bootfitters' network also provides us with insights to improve our products. We based our Dual 3D liner technology on these feedbacks providing the latest technology in terms of fit. The Dual 3D liner technology combines a 3D inside and a 3D outside of the liner. The 3D inside of the liner follows perfectly the foot's shape while the 3D outside follows the shape of the boot. The liner matches both foot and boot to be one. Better fit, better transmission, better feeling to increase the ski experience. Liners using the 3D liner technology are thermoformable.

## SPEED CABIN BAG DKFB102

- CHARACTERISTICS:
- WHEELED SUITCASES
  - TELESCOPIC HANDLE
  - SEVERAL STORAGE PLACE

CAPACITY 50 L  
 SIZE L530 x W320 x H300 MM  
 WEIGHT 2.91 KG

## SPEED 2/3 PAIRS WHEEL BAG 210 CM DKFB103

- CHARACTERISTICS:
- SKI BAG WITH CASTERS
  - GREAT VOLUME FOR TRANSPORT SKIS AND POLES
  - ULTRA RESISTANT LINING
  - MANY STORAGE AND INTERIOR COMPARTMENTS

CAPACITY 2/3 PAIRS / 210 CM  
 SIZE L2150 x W350 x H220 MM  
 WEIGHT 5.50 KG

## SPEED 2 PAIRS 195 CM DKFB104

- CHARACTERISTICS:
- LARGE OPENING FOR EASY SKI STORAGE

CAPACITY 2 PAIRS / 195 CM  
 SIZE L1980 x W260 x H260 MM  
 WEIGHT 1.20 KG

## SKI STRAP DKCB010

SIZE L470 x W55 x H10 MM  
 WEIGHT 0,026 KG

## HEATED BAG LKFB100

VOLUME (L): 65  
 DIMENSIONS (L x W x H mm): 460 X 430 X 340  
 WEIGHT (KG): 4.64

- Heated bag - 220V  
 Lots of pockets  
 Mains charging or using a car cigarette lighter  
 Large storage volume

## HEATED BAG 110V LKFB101

VOLUME (L): 65  
 DIMENSIONS (L x W x H mm): 460 X 430 X 340  
 WEIGHT (KG): 4.64

- Heated bag - 110V  
 Lots of pockets  
 Mains charging or using a car cigarette lighter  
 Large storage volume

## RACER BAG LKFB102

VOLUME (L): 95  
 DIMENSIONS (L x W x H mm): 700 X 490 X 280  
 WEIGHT (KG): 1.15

- Lots of pockets and storage solutions  
 Large opening on the top of the bag and opening on the back  
 Backpack with large storage volume

## LANGE PRO LKFB105

VOLUME (L): 36  
 DIMENSIONS (L x W x H mm): 300 X 200 X 600  
 WEIGHT (KG): 1.31

- Easier transportation of boots thanks to two hoops  
 Hydration pack compatible  
 Mesh to transport a helmet on top of the bag

## STARTING BAG LKFB103

VOLUME (L): 140  
 DIMENSIONS (L x W x H mm): 700 X 490 X 400  
 WEIGHT (KG): 1.22

- Shoulder straps to carry as a backpack  
 Large storage volume

## LANGE BACKPACK SEAT LKFB104

VOLUME (L): 55  
 DIMENSIONS (L x W x H mm): 500 X 340 X 320  
 WEIGHT (KG): 2.3

- Lots of pockets  
 Integrated detachable seat  
 Large storage volume

## LANGE BACKPACK LKFB107

VOLUME (L): 74  
 DIMENSIONS (L x W x H mm): 520 X 510 X 280  
 WEIGHT (KG): 1.26

- Backpack  
 Lots of pockets  
 Large storage volume

## LANGE PRO BOOT BAG LKFB106

VOLUME (L): 40  
 DIMENSIONS (L x W x H mm): 400 X 260 X 430  
 WEIGHT (KG): 0.74

- Carrying solutions for one pair of ski or snowboard boots  
 Additional pocket to hold lots of accessories  
 Backpack carrying system

## MEDIUM BOOT BAG LKFB109

VOLUME (L): 40  
 DIMENSIONS (L x W x H mm): 400 X 250 X 430  
 WEIGHT (KG): 0.68

- Carrying solutions for one pair of ski or snowboard boots  
 Additional pocket to hold lots of accessories

## DYNASTAR RACE DEPARTMENT RECOMMENDATIONS (SKIS, BINDINGS, SKIBOOT)

General Observations: Ski selection, both model and length, always will be a very personal and, to a large degree, a very subjective decision. The following chart shows some of the common trends we noticed as a result of our ongoing testing, which should be taken into consideration when making model and length decision. Optimal ski length is determined by the following order: ability, weight and strength. The Rossignol Race Department hopes you will find this information useful and wishes you an excellent winter of racing. Good luck at the races!

## SUPER SKULL SPIN NEW

A competitive edge from the cutting edge. The Super Skull SPIN is a super lightweight helmet designed specifically for elite-level racers, meeting the demands and rigors of those at the cutting edge of their sport.

The next stage in the evolution of the Skull, POC's classic race helmet, the Super Skull SPIN delivers protection for those who demand nothing but the safest, lightest protection. From the very beginning, the Skull family has been about one thing above all else: supporting the fastest, safest way down on a race run.

Certified for race use by the FIS, the Super Skull SPIN provides performance protection at a weight previously unimaginable thanks to a carbon fiber shell. Coupled with our patent-pending SPIN pads lining the helmet interior, the helmet gives enhanced rotational impact protection. A multi-impact VPD System layer is included in the front deflector panel and at the rear to deflect energy from gales or low-impact falls, further enhancing the ability of the helmet to protect in higher-speed crashes.

When combined, these features deliver a new level of safety in a super lightweight package designed exclusively for safety on the race run.

- Super lightweight carbon shell
- Multi-impact EPP liner
- Integrated patent-pending POC SPIN interior padding to enhance rotational impact protection
- Integrated VPD System front and rear layer for enhanced protection against repeated impacts
- Ear chambers designed to minimize interference with balance and hearing
- Fixed goggle clip
- Compatible with POC's break-away chin guard for slalom (sold separately)
- FIS RH 2013 certified
- Available in one color scheme only

## SKULL ORBIC COMP SPIN

The FIS approved and ultimate race helmet, Skull Orbic Comp SPIN, takes high speed, oblique falls and repetitive impact protection to another level. The patent pending deflector panel uses a combination of technologies, EPP and VPD 2.0, to minimise the energy transmitted to a skier's head from repeatedly hitting gates or during a fall. The deflector panel is also reinforced with an Aramid Penetration Barrier (APB) which improves the safety and integrity of the helmet.

Featuring POC's patent pending rotational impact protection system, SPIN, the internal shearing pads will reduce the effects of an oblique fall by reducing the amount of force transmitted to the head and brain. SPIN works by allowing pads placed inside the helmet to shear in any direction during an oblique impact, a process inspired by the brain's own internal protective system, cerebrospinal fluid, which cushions the head during a fall. By using the innovative and unique pad technology, which sit directly against the user's head, SPIN pads allow the helmet to move relative to the head during a fall, reducing the force transmitted to the brain.

The Skull Orbic Comp SPIN also features ear chambers which have been designed to improve balance and hearing without compromising safety and fit. In addition, the helmet is compatible with the Maxilla break away chin-guard to provide extra levels of protection if required.

- Helmet integrated with patent pending POC SPIN (Shearing Pad Inside) to increase protection against rotational impact
- VPD 2.0 deflector panel for enhanced protection against repeated impacts
- Aramid anti-penetration integrated in the deflector panel
- Updated ABS shell multi-impact EPP liner with improved fit
- Ear chambers designed to improve balance and hearing
- Fixed goggle clip
- Compatible with POC's Maxilla break away chin-guard for Slalom (sold separately)
- FIS RH 2013 certified
- ABS/PC Shell

## ARTIC SL SPIN

The Artic SL SPIN is a no compromise slalom helmet designed for competition and which provides the ultimate in safety and performance. Featuring POC's patent pending rotational impact protection system, SPIN, the internal shearing pads will reduce the effects of an oblique fall by reducing the amount of force transmitted to the head and brain. SPIN works by allowing pads placed inside the helmet to shear in any direction during an oblique impact, a process inspired by the brain's own internal protective system, cerebrospinal fluid, which cushions the head during a fall. By using the innovative and unique pad technology, which sit directly against the user's head, SPIN pads allow the helmet to move relative to the head during a fall, reducing the force transmitted to the brain.

- Innovative detachable and adjustable Maxilla break away chin bar which can be fixed or set to break away at varying impact levels.
- Helmet integrated with patent pending POC SPIN (Shearing Pad Inside) to increase protection against rotational impacts
- POC patented Visco-elastic Polymer Dough (VPD) 2.0 inserts in the rear of the helmet
- Multi impact EPP liner
- Durable ABS shell
- Adjustable ventilation with front and top sliders
- Detachable goggle clip

## MAXILLA BREAK AWAY CHIN BAR

The Artic SL SPIN features the unique detachable and adjustable Maxilla break away chin guard, which can be fixed or set to break away at varying impact levels. The Maxilla break away chin-guard has been designed to minimize any potential injury to the neck or face and to meet the needs of different types of slalom racers and courses. The innovative and simple self-adjustment system gives racers all the flexibility they need for training and race day. A combination of SPIN, an advanced multi impact EPP liner and a very robust ABS shell result in a very safe and durable helmet. In addition, to meet the specific needs of slalom racers the helmet also features POC's patented VPD 2.0 technology in the helmet to reduce the force of impact and absorb energy away from the helmet liner and user. Together with a precise and fully adjustable ventilation system the Artic SL SPIN provides the full package for the serious slalom racer.

## SKULL ORBIC X SPIN

The Skull Orbic X SPIN is an FIS approved high speed race helmet. Featuring POC's patent pending rotational impact protection system, SPIN, the internal shearing pads will reduce the effects of an oblique fall by reducing the amount of force transmitted to the head and brain. SPIN works by allowing pads placed inside the helmet to shear in any direction during an oblique impact, a process inspired by the brain's own internal protective system, cerebrospinal fluid, which cushions the head during a fall. By using the innovative and unique pad technology, which sit directly against the user's head, SPIN pads allow the helmet to move relative to the head during a fall, reducing the force transmitted to the brain.

A combination of SPIN, an advanced multi impact EPP liner, which is thicker in strategic zones to manage higher impact and repetitive forces, plus a very robust ABS shell results in a very safe and durable helmet which meets the needs of competitive skiers.

The Skull Orbic X SPIN also features ear chambers which have been designed to improve balance and hearing without compromising safety and fit and the helmet is compatible with POC's Maxilla break away chin-guard to provide extra protection if required.

- Helmet integrated with patent pending POC SPIN (Shearing Pad Inside) to increase protection against rotational impact
- EPP deflector panel
- Multi-impact EPP liner with improved fit and impact protection
- Updated robust ABS shell and
- Ear chambers designed for less balance and hearing interference
- Fixed goggle clip
- Compatible with POC's Maxilla break away chin-guard for Slalom (sold separately)
- FIS RH 2013 certified
- ABS/PC Shell

## SKULL X

POC's Skull X race helmet features a penetration proof multi-impact EPP liner to withstand multiple impacts and has a tapered shell for resistance and protection. The ear chambers are designed for less effect on balance and hearing. The Skull X also makes an excellent race helmet for junior ski racers.

- Injected PC/ABS shell
- Multi-impact EPP liner
- Tapered shell for resistance and protection
- Comfortable LD foam lining, easy detachable for cleaning
- Penetration-proof front ventilation
- Ear chambers designed for less effect on balance and hearing
- Detachable goggle clip

## FOVEA CLARITY COMP

Fovea Clarity Comp introduces a new level of optical performance thanks to unique lenses produced in collaboration with industry leaders, Carl Zeiss. Clarity Comp lenses have been developed with specific and highly advanced tints designed to enhance contrast and vision for the shorter, intense competition settings when nothing less than perfect sight will do. Unique Spektris mirror coatings have been engineered to complement each Clarity Comp lens base tint and are applied for three distinct weather conditions: sunny; partly sunny and overcast. The Fovea frame is also optimized for a large field of view and with the option of high density race vents, the result is a goggle and lens which provides unparalleled competition vision and performance.

- Clarity Comp lens with base tint maximized for contrast and competition
- Unique Spektris mirror coating
- Designed for a large field of view
- Adjustable ventilation - additional high density race vent included
- Triple layer foam for comfort
- Anti-fog treatment
- Anti-scratch treatment
- Incl. Spare Lens

## RETINA CLARITY COMP NEW

The Retina Comp has a soft PU mid-size frame with a triple-layer face foam for an optimal fit. The goggle comes with race specific tints, made of optical grade PC/CP that is anti-fog and anti-scratch treated to promote vision and resistance. The silicone grip on the inside of the strap makes sure they stay perfectly in place. Compatible with all Retina lenses. Included: Two race specific lenses (Smokey Yellow and Transparent) are included when buying the Retina Comp goggles.

- Clarity Comp lens with base tint maximized for contrast and competition
- Unique Spektris mirror coating/Anti-scratch and anti-fog treated
- Triple-layer face foam
- Silicone grip on the inside of the strap
- Includes spare Clarity Comp lens for low light condition (Julia Mancuso ed. includes no spare lens)
- Incl. Spare Lens

## RETINA BIG CLARITY COMP NEW

The Retina Big Comp comes with race specific tints, made of optical grade PC/CP that is anti-fog and anti-scratch treated to promote vision and resistance. The PU frame conforms to different face shapes and maintains its flexibility even in cold temperatures, and the triple layer face foam and fleece ensures a comfortable fit. Compatible with all Retina Big lenses. Included: Two race specific lenses (Smokey Yellow and Transparent) are included when buying the Retina Big Comp goggles.

- Clarity Comp lens with base tint maximized for contrast and competition
- Unique Spektris mirror coating
- Anti-scratch/Anti-fog treatment
- Triple-layer face foam
- Silicone grip on the inside of the strap
- Includes spare Clarity Comp lens for low light condition (Julia Mancuso ed. includes no spare lens)

## VPD SYSTEM BACK NEW

The VPD System Back is an extremely ventilated and lightweight back protector with easily adjustable shoulder and waist strap anchor points, making it even easier to find the perfect fit. By being able to easily change the attachment points of the shoulder straps and waistband, any user can feel comfortable and ensure that their protection fits properly and securely.

VPD is malleable and adapts to the shape of the wearer's body, but when exposed to impact the material stiffens and has extreme impact absorption properties. Suitable for all types of skiers, this protector certified to EN1621-2 Level 1, provides extreme ventilation and maximum comfort. Its minimalist shape provides protection where it is needed without the addition of unnecessary bulk.

- Adjustable carrying system for a personalized fit
- Lightweight
- Highly ventilated
- Minimalist shape
- Pre-shaped for an ergonomic fit

SIZES S, M, L  
CERTIFIED EN 1621-2 LEVEL 1  
ARTICLE NUMBER 20620

## VPD SYSTEM VEST

Flexible and moulded back protector with the highest, Level 2 (1621-2) certification. The woven back fabric uses monofilament threads and a Kevlar reinforced barrier to establish resistance and anti penetration, which provide maximum abrasion resistance. The design also provides a highly versatile protector with extreme ventilation channels and flexibility. Available in regular and slim fit.

- Moulded back protector with extremely flexible hexagon geometry
- Ventilation channels for optimized moisture control

## SPINE VPD SYSTEM COMP BACK

The Spine VPD System Comp Back vest is a dedicated back protector for ski racers or skiers who want the ultimate performance back protector. Based on POCs patented VPD (Visco-elastic Polymer Dough) technology, which adapts with body heat to fit each unique user, the molded back protector is extremely flexible and conforms to the highest, Level 2 (1621-2) certification.

The woven fabric uses monofilament threads and a Kevlar reinforced barrier to establish resistance and anti-penetration around the spine, which provide maximum abrasion resistance. The design also provides a versatile protector with highly ventilation channels and flexibility ensuring that the vest is extremely comfortable to wear all day. Designed with a race fit the protector also features low bulk thanks to seamless glue technology and minimizing all additional fabric.

- Extremely flexible molded VPD back protector
- Ventilation channels for optimizing moisture control
- Kevlar reinforced anti-penetration protection around the spine
- Race fit with glued edges for less bulk
- Optional adjustable waistband

## SHINS COMP/JUNIOR NEW

The Shins Comp is an ergonomic and padded shin guard. Constructed from carbon fiber-reinforced TPE, and containing 10% PTFE, the durable, stiff and lightweight protectors are designed to minimize friction when hitting a gate, thereby enhancing a speedier passage through the gates. The protectors are lined with EVA padding for comfort and feature robust Velcro straps so they stay securely in place on every run. Cutting marks are included on the shield so that the length can be adjusted for a personal fit.

- Carbon fiber-reinforced thermoplastic elastomer (TPE) construction
- Durable, stiff and lightweight
- PTFE bonding to reduce impact friction
- EVA padding for comfort
- Robust Velcro straps for a secure fit
- Cutting marks for personal length adjustment

## FOREARM COMP/JUNIOR NEW

The Forearm Comp is an ergonomic and padded forearm protector. Constructed from carbon fiber-reinforced TPE, and containing 10% PTFE, the durable, stiff and lightweight protectors are designed to minimize friction when impacting a gate, thereby supporting higher speeds through the gates. Cutting marks are included on the shield so that the length can be adjusted for a personal fit.

The senior version is developed to be used with the Palm Comp VPD2.0 race glove, the Forearm Comp can be fixed and held securely in place with the glove strap, thereby providing seamless protection for the entire hand and forearm.

- Carbon fiber-reinforced thermoplastic elastomer (TPE) construction
- Durable, stiff and lightweight
- PTFE bonding to reduce impact friction
- Can be secured in place with Palm Comp VPD 2.0 race glove (does not apply to the Junior version)

## POC SHELL COAT NEW

The POC Snow Coat is made of an advanced multi-layer DWR treated Nylon fabric with a 10 000 mm water column for comfort, warmth and protection in colder conditions and bad weather.

Practical features include reinforced shoulders for enhanced durability when carrying skis, a radio pocket on the chest, and a secure ski-pass pocket positioned to ensure passing the barriers before the ski lifts is always easy. The hood, which features a reflective POC logo for enhanced visibility, is adjustable and can be used with or without a helmet for optimum functionality both on and off the slopes.

The jacket is designed for an ergonomic fit, with pre-bent sleeves and zipped side-slits for enhanced freedom of movement. The two-way front zip and all other zip fasteners on the coat are easily operable with gloves on. Spacious pockets allow a variety of belongings including goggles and gloves to be stored securely.

- Constructed using a multi-layer DWR treated Nylon with 10 000 mm water column
- Reinforced shoulder areas for durability when carrying skis
- Pre-bent sleeves for increased freedom of movement
- Adjustable and helmet-compatible hood with reflective POC logo
- Radio pocket at chest
- Ski-pass pocket inside side pocket
- 2-way front zip
- All zippers are easily operated while wearing gloves
- Roomy Mesh pockets inside jacket to carry your stuff
- Velcro at bottom of sleeve for width adjustment
- Zipped sideslits for extra freedom of movement
- Elastic Drawstring at bottom
- Tone in tone embossed POC logo on the bottom rear-side of the jacket

## POCLINER JACKET NEW

The POC Snow Liner Jacket is a versatile garment that can be used on its own or as an extra layer under a coat, to provide extra warmth. The lightweight jacket is constructed from polyamide which offers great protection from the elements and is lightly padded.

The innovative synthetic insulation uses loose fibers for down-like feel and warmth. It also has a high loft and remains warm even in wet conditions. It is easy to care for, retaining its loft after washing and tumble drying.

With pre-bent sleeves, the jacket gives a better fit for freedom of movement, while an adjustable hood gives flexibility in varying weather conditions, and a reflective POC logo also features.

- Main fabric in lightweight polyamide
- Synthetic padding containing loose fibers that combines the superior insulation properties of down with the water resistance of synthetic, remaining warm even when wet
- Easy care padding – retains its loft after wash and tumble dry
- Pre-bent sleeves give a better fit and improved freedom of movement
- Adjustable hood with reflective POC logo
- Elastic binding at sleeve and bottom hem
- Open side seam pockets

## POC LOFT PARKA NEW

The POC Snow Parka is made of an advanced multi-layer DWR treated Nylon with a 10 000mm water column, providing comfort, warmth and protection from challenging weather conditions. The innovative synthetic insulation uses loose fibers for down-like feel and warmth. It also has a high loft and remains warm even in wet conditions. It is easy to care for, retaining its loft after washing and tumble drying.

A true winter coat, all zippers are easily operable while wearing gloves. Pre-bent sleeves offer improved freedom of movement, while large mesh pockets have room for goggles, gloves and more. A secure ski-pass pocket is positioned to ensure passing the barriers before the ski lifts is always easy. The adjustable hood with reflective logo provides protection from the elements and improves visibility. The hood is large enough to be used with a helmet, giving functionality both on and off the slopes.

The padded parka provides lightweight and warm insulation. Practical features include reinforced shoulders for durability when carrying skis, and zipped gussets with laser-cut ventilation on the collar, to give the wearer more space and better temperature control around the neck.

- Constructed using a multi-layer DWR treated Nylon with 10 000 mm water column
- Synthetic padding containing loose fibers that combines the superior insulation properties of down with the water resistance of synthetic, remaining warm even when wet.
- Easy care padding – retains its loft after wash and tumble dry
- Reinforced shoulder areas for durability when carrying skis
- Pre-bent sleeves for increased freedom of movement
- Adjustable and helmet-compatible hood with reflective POC logo
- Zipped gussets with laser-cut ventilation holes on the collar for better control of airflow and breathability
- Ski-pass pocket inside side pocket
- 2-way front zip
- All zippers are easily operated while wearing gloves.
- Roomy Mesh pockets inside jacket to carry your stuff
- Velcro at bottom of sleeve for width adjustment
- Elastic cuff for extra warmth
- Elastic drawstring at bottom for hem adjustment

## POC LAYER CUT SUIT TOP/JUNIOR NEW

POC Layer is an innovative approach to protecting ski racers from cuts and abrasions. By combining the protective qualities of Dyneema® fabric within a technical base layer, ski racers have a simple but highly effective protective barrier to injury from sharp edges.

The Dyneema® fabric, which has been tested for cut resistance under EN 388:2004, is strategically located to ensure that areas most exposed to cuts or abrasion are protected, notably the collar, neck, under arm and along the sleeves.

To allow a ski racer the ability to focus and perform the jersey has also been designed with a high level of comfort and flexibility. A diagonal zip collar, semi raglan sleeves and an extended center back length provide a large freedom of movement. The Jersey can be complemented by POC layer tights which when worn together provide the perfect race protection. When worn in combination with a POC Skin GS suit level 4 cut resistance is achieved (out of a maximum of 5) as tested under EN 388:2004.

- Jersey mixed with a Dyneema® fabric to prevent injury from sharp edges
- Level 2 cut resistance achieved under EN 388:2004, level 4 cut resistance achieved when paired with POC Skin GS suit (5 is maximum)
- Dyneema® fabric strategically placed to reinforce areas most exposed to sharp edges
- Highly flexible and lightweight main fabric
- Good wicking and moisture management properties
- Good level of warmth
- Competition/race fit
- Designed to be worn with a race suit

## SUPER PALM COMP

The Super Palm Comp is a dedicated ski racing glove that offers a high level of protection, comfort and grip. The palm is made from high quality goatskin and the back of the hand is made from a durable ceramic-coated fabric with abrasion resistant properties. The Super Palm Comp has molded EVA foam padding over the fingers and knuckles. To provide enhanced protection against gates and impacts, the gloves also utilize POC's award-winning and impact absorbing VPD 2.0 compound on the thumb and back of the hand. The Super Palm Comp has a neoprene cuff compatible with POC's Forearm guard for a seamless and comfortable fit and all seams have been strategically placed for enhanced comfort and grip.

- Durable ceramic-coated SuperFabric® with abrasion resistant properties
- High quality goatskin
- Shock absorbing VPD 2.0 on the thumb and back of the hand
- Molded EVA padding on fingers and knuckles
- Thinsulate insulation for comfort and warmth
- Special compressed Thinsulate insulation in the palm for better grip and control
- Neoprene cuff with Velcro adjustment

## POC LAYER CUT SUIT BOTTOM/JUNIOR NEW

POC Layer is an innovative approach to protecting ski racers from cuts and abrasions. By combining the protective qualities of Dyneema® fabric within a technical base layer, ski racers have a simple but highly effective protective barrier to injury from sharp edges. The Dyneema® fabric, which has been tested for cut resistance under EN 388:2004, is strategically located to ensure that areas most exposed to cuts or abrasion are protected, notably the crotch, the front and back of the thigh, back of the knee and seat of the tights.

To allow a ski racer the ability to focus and perform the tights have also been designed with a high level of comfort and flexibility. A soft and comfortable elastic waistband, a lighter weight material around the calf, crotch, leg and hip, combined with a ski specific three quarter length ensure they meet the ski racers needs. The tights can be complemented by the POC layer jersey which when worn together provide the perfect race protection. When worn in combination with a POC Skin GS suit level 4 cut resistance is achieved (out of a maximum of 5) as tested under EN 388:2004.

- Cut Suit Bottom mixed with a Dyneema® fabric to prevent injury from sharp edges
- Level 2 cut resistance achieved under EN 388:2004, level 4 cut resistance achieved when paired with POC Skin GS suit (5 is maximum)
- Dyneema® fabric strategically placed to reinforce areas most exposed to sharp edges
- Highly flexible and lightweight main fabric
- Good wicking and moisture management properties
- Good level of warmth
- Competition/race fit

## PALM COMP VPD 2.0 MITTEN

A performance race mitten, made from high quality goatskin and with Thinsulate insulation, which supports comfort, warmth and race touch/sensitivity. Palm Comp VPD 2.0 Mitten is developed for racing and has shock absorbing areas with VPD 2.0 and EVA padding. The neoprene cuff is compatible with POC's Forearm guard for seamless fit that stays in place. Strategically placed side seams and external finger seams for comfort, durability and grip.

- High quality goatskin
- Thinsulate insulation for comfort and warmth
- An advanced compressed Thinsulate insulation in the palm for improved grip and control
- Shock absorbing VPD 2.0 on the thumb
- EVA padding on the backside of the hand and fingers
- Reinforcement in the palm area
- Neoprene cuff with Velcro adjustment
- Comfortable interior with individual cavities for each finger

## PALM COMP MITTEN JUNIOR NEW

The Palm Comp Mitten Jr provides junior ski racers with a protective performance mitten. With a high-quality, durable goat skin outer and water-resistant Thinsulate insulation on the inside, the mitten offers comfort, warmth and practicality. Reinforced palms, shock-absorbing VPD 2.0 on the thumbs and EVA padding across the back of the hand and fingers give added protection without reducing precise feel and control.

A neoprene cuff and Velcro adjustment ensure a close, accurate and secure fit.

- Made with high quality goatskin
- Shock absorbing VPD 2.0 on the thumbs
- EVA padding on the backside hand and fingers
- Reinforcement in the palm area
- Water resistant Thinsulate insulation for enhanced comfort and warmth
- Neoprene cuff with Velcro adjustment

## SUPER PALM COMP JUNIOR

The Super Palm Comp JR glove is ideal for junior ski racers who need excellent protection, a precise fit and performance. The gloves are made with high quality goatskin for excellent durability, feel and control, and feature shock absorbing VPD 2.0 on the thumbs and back of the hand, with additional padding on the fingers and knuckles. The gloves provide a high level of warmth and feature water-resistant Thinsulate insulation, which keeps hands dry, warm and responsive, supporting improved touch and feel, ensuring grip and control remain optimal for race conditions.

A new, smaller, size will be available for the Fall/Winter 18/19 season. A new 8yr size adds to the existing options of 10yr, 12yr and 14yr.

- Gloves made with high-quality goatskin
- Shock absorbing VPD 2.0 on the thumb and back of the hand
- Molded EVA padding on the fingers and knuckles
- Water-resistant Thinsulate insulation for comfort and warmth
- Neoprene cuff with Velcro adjustment
